WARSHIP DOOM PANAMA

By R. M. WILLIAMS
The old ship, the USS Oregon, which was launched in 1893, is to be scrapped at the Panama Canal zone. The ship, which was the first of its kind, was built for the navy and was the first of its kind to be built in the United States. It was the first of its kind to be built in the United States. It was the first of its kind to be built in the United States.

THREE CHILDREN FOUND FROZEN

Refuge in Shanty Finds to Save Gals Victims in Colorado
By A. P. NIGHT WIRE
PUEBLO (Colo.) March 18.—Three children of Mr. and Mrs. Allen Evans of Baxter, Colo., five miles east of here, today were found frozen to death in a shanty quarter of a mile from their home by a searching party that had been seeking the children all night. The children early yesterday were caught in a dust storm which preceded the worst blizzard of the season. While on their way to the family mail box and sought shelter in the shanty.

POLICE NET CLOSING ON MURDERER

NEW YORK, March 18.—A den of Broadway's underworld, whose chief business is said to have been levying blackmail upon the "gold diggers" of the half-world of the bright-light areas, is being shadowed by the police and probably will be arrested in a few hours in connection with the slaying of chloroform of Dorothy Keenan, whose body was found in a shanty.

ROME GREET CONGRESS OF TRADE HEADS

By Cable and Associated Press
ROME, March 18.—Americans and Mussolini were outstanding features of the opening session this afternoon of the second Congress in the International Chamber of Commerce. The American delegation was the largest of the visiting delegations, numbering 140. Chief interest centered in the speech of the Italian Premier, which was applauded throughout. All of the speakers mentioned America's great representation enthusiastically. Mussolini's presence was made the occasion for a great turnout of Fascist guards. "Mussolini's musketeers," thirty-eight of Italy's greatest war heroes, acted as guard of honor for the American delegation. The Premier was accompanied by Gen. Diaz, ex-Premier Tittoni, Count Rossi, Signor de Nicola, and the speaker of the Chamber of Deputies, and other officials of the government were present and the hall where the Congress was being held was decorated with the Allied flags.

CO-OPERATION URGED

The official welcome of the Italian business men was extended by Marco Casini, President of the Italian Chamber of Commerce, who briefly reviewed the work of Italy's new government and the economic future of the world depends upon the close co-operation of all countries. He stressed the policy of isolation which he said they alone are injured thereby.

Unloaded Pistol Fatal

A supposedly unloaded pistol resulted in the death of Placido Donetti, 47 years of age, at the Huntington Park Hospital last night. Saturday afternoon the dead boy was with Angelo Hill, 11 years of age, in the rear of the former's home at 1313 College street. Hill had a pistol which he thought was unloaded. He experimentally pulled the trigger and a bullet pierced Donetti's chest. After the accident Donetti lapsed into coma and died without regaining consciousness.

Arrested in San Diego

John H. Merrill, said to be a local attorney and asserted fugitive from justice, was arrested last night by the San Diego police on a felony charge at the request of the United States marshal.

Compers Recovers

NEW YORK, March 18.—Samuel Compers, president of the American Federation of Labor, who has been seriously ill in the hospital, has recovered sufficiently today to leave his bed and take a short walk about the building.

Irregulars Nabbed

DUBLIN, March 18.—Eighteen irregulars, including some men of importance, were arrested today at Ballyconnell and Tipperary.

Florida Flower Honors Taken by Rockefeller

DAYTONA (Fla.) March 18.—John D. Rockefeller was awarded six blue ribbons at the second annual flower show of the Garden Club of the Halifax County Club at the Hotel Ormond. Practically all of the Rockefeller exhibit was of pink flowers and all were grown on his Ormond estate. Blue ribbons were won on a Marjilla, pink Lily spoken of in the Bible, "Solomon in all his glory was not arrayed as one of these on two varieties of Cineraria, commonly known as "Touch Me Not," Begonia, calla lilies and artemisia. Outside of the calla lilies and one or two purple Cineraria his extensive collection was entirely of pink flowers, showing a marked preference for this color.

France Favors Angola Plans in Near East

PARIS, March 18.—France favors accepting Angola's counter proposals and Premier Poincare has instructed M. Bonaparte in London to seek a definitive settlement of the Near East problem. It is learned.

PLANS TRIP IN JUNE

As it now stands, the plan for his trip contemplates his departure from Washington during June.

Killing Marks General Disorder in Germany; French Make Arrests

PARIS, March 18.—Essen dispatches report the shooting and killing today of a French soldier at the railway station there. Four Germans were arrested; one of them was shot and wounded by the French while trying to escape.

LATEST NEWS

R. J. Dominguez, Native of City, Succumbs

Ralph J. Dominguez, member of an old and widely known Los Angeles family, died at 10 o'clock last night at his home, 919 West Washington street, of heart disease. Mr. Dominguez had been married and he was about 47 years of age and had been a resident of Los Angeles for thirty-six years. He was a member of the United States District Court for thirty-six years. He was a member of the United States District Court for thirty-six years. He was a member of the United States District Court for thirty-six years.

Warnings of Loan Refuse

PARIS, March 18.—The proposed loan of 1,000,000,000 francs in the United States may be refused as reparations by the Allies, the Temps writes today, commenting on the announcement of Mr. F. L. B. of a New York broker, offering \$10,000,000 in German securities of indebtedness, guaranteed by the Reichsbank.

FIGURES GIVEN OUT

Mr. Daugherty's statement that the Republicans would go before the country on the record of the Harding administration and would win on that platform came to Washington just as the Republican National Committee was issuing some statistics on the November, 1922, elections to dispel the view there had been a "Democratic landslide."

AGGREGATE REDUCED

On the basis of such calculations the Republicans had a plurality of 1,720,642 over the Democrats, as compared with 7,000,000 in the Harding-Coolidge landslide of 1920, a cut of 66 per cent in the plurality. The aggregate vote in 1922 was about 76 per cent of that in 1920. The totals in 1920 were: Republicans 16,153,200; Democrats 9,134,412.

FRENCH OFFICIALS IN RUHR

PARIS, March 18.—Minister of Public Works Le Troquer, accompanied by M. Guillaume, Director of Mines, left for the Ruhr tonight to look over the situation in the province and to occupy mining and coke which was initiated last week by M. Frantzen, who has succeeded M. Cote as inspector of mines and head of the industrial mission in the Ruhr.

American Helps Legion of Honor in Museum Fund

PARIS, March 18.—It was announced today by the chancellery of the Legion of Honor that the 1,000,000-franc fund for founding a Legion of Honor museum had been completed by the gift of 400,000 francs (about \$25,000) from William Nelson Cromwell of New York.

France Favors Angola Plans in Near East

PARIS, March 18.—France favors accepting Angola's counter proposals and Premier Poincare has instructed M. Bonaparte in London to seek a definitive settlement of the Near East problem. It is learned.

PLANS TRIP IN JUNE

As it now stands, the plan for his trip contemplates his departure from Washington during June.

ASPIRATIONS OF SENATORS ARE CRUSHED

By Robert Barry
WASHINGTON, March 18.—Atty.-Gen. Daugherty's announcement yesterday at Miami was regarded here today as a "keep off the grass" notice to various Republican Senatorial gentlemen in whose heads Presidential bees have been a-buzzing. The statement that the President would be re-nominated without opposition—and re-elected—was in effect a seconding speech to that delivered in the Senate a few weeks ago by Senator Watson of Indiana, who put Mr. Harding's name up for another term.

WARRIORS OF LOAN REFUSE

PARIS, March 18.—The proposed loan of 1,000,000,000 francs in the United States may be refused as reparations by the Allies, the Temps writes today, commenting on the announcement of Mr. F. L. B. of a New York broker, offering \$10,000,000 in German securities of indebtedness, guaranteed by the Reichsbank.

FIGURES GIVEN OUT

Mr. Daugherty's statement that the Republicans would go before the country on the record of the Harding administration and would win on that platform came to Washington just as the Republican National Committee was issuing some statistics on the November, 1922, elections to dispel the view there had been a "Democratic landslide."

AGGREGATE REDUCED

On the basis of such calculations the Republicans had a plurality of 1,720,642 over the Democrats, as compared with 7,000,000 in the Harding-Coolidge landslide of 1920, a cut of 66 per cent in the plurality. PLANS TRIP IN JUNE

As it now stands, the plan for his trip contemplates his departure from Washington during June.

MISSISSIPPI VALLEY GRIPPED BY WORST STORMS OF WINTER

CHICAGO, March 18.—Old Boreas, about to be crowded off the stage by gentle Spring, is staging a furious farwell, crowding into the few days remaining, all the nasty weather that should have been distributed through the winter months.

WARRIORS OF LOAN REFUSE

PARIS, March 18.—The proposed loan of 1,000,000,000 francs in the United States may be refused as reparations by the Allies, the Temps writes today, commenting on the announcement of Mr. F. L. B. of a New York broker, offering \$10,000,000 in German securities of indebtedness, guaranteed by the Reichsbank.

FLYERS DIE IN FLAMES

Fort Bliss Airmen Caught in Plane "Go West" As Hundreds Watch, Powerless to Aid.

EL PASO (Tex.) March 18.—Jay Rittenbach, 26 years of age, and Kenneth Brown, 22, resident of the United States Army Air Service, were burned to death at Fort Bliss this afternoon when the De Havilland plane in which they were making a practice flight crashed to the ground in full view of hundreds of spectators.

The accident occurred at 2:40 p.m. The plane caught fire and became a burning coffin for the two flyers, who were pinned in the wreckage. Army officers, commercial airplane pilots and spectators were powerless to rescue the victims, so intense was the fire.

Brown was an El Paso resident and was born in Gotham, N. H. He formerly lived at Portland, Me.

Uncle Sam's Poultry Experiment Work in Arizona

By R. M. WILLIAMS
The United States Department of Agriculture, under the direction of Mr. E. A. Mearns, has been conducting an experiment in poultry raising in the Salt River Valley in Arizona, where for some years an outbreak of disease has been prevalent. The experiment is being conducted by Mr. E. A. Mearns, who is in charge of the United States Department of Agriculture.

Delegation Germans Always Have Been Ready for Fair Understanding

By JOHN CLAYTON
The German government always has been ready to come to a fair and just understanding with the United States. The German government always has been ready to come to a fair and just understanding with the United States. The German government always has been ready to come to a fair and just understanding with the United States.

PLAN HARDING PROGRAM

Movement for Renomination at Stage Where Organization and Speaking Tour are Given Attention

WASHINGTON, March 18.—The movement for the renomination of President Harding, which took first tangible form in recent conferences among a group of his friends here, has developed to a stage where details of the personnel and program of a pre-nomination organization in his behalf are receiving active attention.

For the present the two most virile topics of these discussions relate to the choice of those who are to head the organization and the various features of the country-wide speaking tour the President himself is expected to make during the summer. Already a tentative itinerary for the trip is under consideration, and Mr. Harding's advisers are putting the heads together to aid him in his selection of the topics he is to discuss.

Atty.-Gen. Daugherty's announcement yesterday that the President would be re-nominated without opposition—and re-elected—was in effect a seconding speech to that delivered in the Senate a few weeks ago by Senator Watson of Indiana, who put Mr. Harding's name up for another term.

The Daugherty statement would make a move toward the nomination so long as the President was not definitely removed from the field—and by his own declaration. The question of the Presidential preference is not to be foreclosed by any accuracy of the Daugherty statement. The Daugherty statement would make a move toward the nomination so long as the President was not definitely removed from the field—and by his own declaration. The question of the Presidential preference is not to be foreclosed by any accuracy of the Daugherty statement.

increase or decrease duties by not more than 20 per cent. Congress has no restricted the executive authority as not to constitute a legal delegation of power.

Representative Tyson, Democrat, Alabama, who formerly was Chief Justice of the Supreme Court of his State, declares that the flexible provisions of the tariff law are unconstitutional.

THINKS LAW IS ILLEGAL.

The tariff law contains provisions never before incorporated in any bill," said Representative Tyson. "Those provisions attempt to confer elastic powers upon the Executive in disregard of the fundamentals of the Constitution which define the powers to be exercised by the legislative and executive branches of the government. The constitution clearly imposes upon the legislative department of the government the power to lay and collect taxes, duties, imposts and excises, to pay the debts and provide for the common defense and welfare of the United States. That power only be exercised by the Congress and not by the Executive. That it is committed exclusively to the Congress is one of the basic principles of the Constitution in its exercise is made plain by the fact that the Constitution vests in the Congress 'all legislative powers' granted by the Constitution to the United States. Those powers by the Executive or the judicial."

**BANK QUIZ
ABSOLVES
TWO GIRLS****Women are Eliminated by
Investigators in Suicide of
President****(EXCLUSIVE DISPATCH)****CHICAGO, March 18.**

Investigators, digging into the tangled

affairs of the Logan Square Bank,

have come to the conclusion that

the women feature had little if

anything to do with the suicide of

Fred W. Poppe, president of the

bank, the blonde beauty and owner

of the \$100,000 bungalow with a

secret tunnel from the garage to

the bungalow, has shown that

she bought the property with her

own money. She believes Poppe

was murdered and that the fact

that a diamond ring and other val-

uables he was known to have car-

ried up to the day of his death, are

missing.

Miss Claire Hellman, who was

reported to have fled to Los An-

geles the day after Poppe's death

was found, was located in Chicago

last night and talked freely. She

declared that Poppe never contrib-

uted a penny toward the support of

her or her mother.

The Attorney General's office is

convinced that neither of these

girls was receiving financial aid

from Poppe, but frequently went

to him for the purpose of borrow-

ing money from the bank's funds.

Auditors and members of the

reorganization committee worked

over the bank all day today and

have worked out a plan they

believe will be satisfactory to the

15,000 depositors. This scheme

permits depositors to withdraw

up to 25 per cent of their funds, if

they so desire and to take 50 per

cent stock in the reorganized bank.

A mass meeting will be held in a

few days to submit the proposition

to all stockholders and depositors.

**ITALIANS TELL
ADVANCEMENT****(Continued from First Page)**

plex of forces styled by the glo-

rious name of capitalism is about

to end, as seems to be believed by

thousands of earnest Americans.

One of the greatest historical ex-

periences which has unfolded itself

under our own eyes has clearly

demonstrated that all systems of

associated economy which free

initiative and individual impulse

will more or less pitifully wither

under the weight of time; but free

initiative does not exclude under-

standing and group work, and all

the easier, the more loyal and the

protection accorded to present

interests. And this, indeed is the

task assigned to your chambers

of commerce—to pursue such a

program of research, of equilibrium

of co-ordination and of concilia-

tion."

AMERICAN DELEGATES**(BY CABLE-EXCLUSIVE DISPATCH)****ROME, March 18.**

Representatives from America at the annual

conference of the International

Chamber of Commerce are Al-

bion J. Johnson, Joseph H. Apple,

John R. Virginia, Mrs. Isaac Bern-

and John D. McIlenny of Philadel-

phia; P. E. Coleman, president of

the Northampton Pump Company;

and William Courtenay, presi-

dents of the American Express

Company of America.

**CHARLES L. McNEILL,
MINE PRESIDENT, DIES****(BY A. P. NIGHT WIRE)****NEW YORK, March 18.**

Charles L. McNeill, president of the

Copper Company, and for many

years active in mining, financial

and railroad circles, died late on

Saturday night from pneumonia,

it was announced today. He was

at his office Friday and had com-

pleted a letter of resignation.

Mr. McNeill, whose home was

in Colorado Springs, was born at

Oak Park, a suburb of Chicago, in

1871.

Funeral services will be con-

ducted Tuesday.

**ROMANCE RUIN
IS BOOMERANG****Ex-Senator Culberson May
Face Grave Charges****Suitor for Daughter Asserts
Kidnaping Attempt****Says Detectives Posed as
Agents of Government****(EXCLUSIVE DISPATCH)****NEWARK (N. J.) March 18.**

Charges of conspiracy against for-

mer Senator James A. Culberson

of Texas, may grow out of the

trial of John P. Ellis, Burns de-

tective, which begins here to-mor-

row morning.

Ellis and other Burns men

were employed by Culberson when

he was still a member of the

Senate, to escort former Sen-

ator Robert to the British Em-

bassy, a veteran Arizona print-

er and newspaper publisher. It

was alleged that Culberson had

brought Robert to the United States

by force, and that he had

attempted to kidnap him.

The British Embassy hastened to

offer him its support. And it is

through the activity of British

government agents that Ellis is

to go on trial on the kidnaping

charge to-morrow.

WILL TELL STORY

Robertson will tell his story to

the jury. Members of the Cul-

berson family, or Chesley E. Ju-

ney, the Senator's private secre-

tary, who made the arrangements

for the deportation, will go upon

the stand to deny some parts of

the Englishman's charges. They

do not deny that they employed

the Burns men, but they deny

that they made the arrangements

for the deportation. They deny

THIRD COMPROMISE

After telling me they had

bought a steamship ticket to the

Argentine, they began making all

sorts of proposals. They brought

a lot of liquor in the room, tried

to get me to drink it. I refused,

believing it to be drugged. They

then suggested that I might

have a desirable woman com-

panion.

They said they would find a

pretty woman, and let her accom-

pany me to South America. I

recused this move instantly.

They would have taken pictures

of me with this woman, and sent

them back to Mary Culberson in

Washington. So I refused.

I saw an opportune moment, I

escaped from the room, and hid

myself in the rooming house. I

was there for several days, and

when the Culbersons realized

that I had fled, they sent men

to get me. I was taken to the

dockside rooming-house, and they

attempted to ruin my reputa-

tion. They tried to get me to

sign a statement that I had

been in the rooming-house, and

that I had been with a woman.

I refused to sign such a state-

ment. They then tried to get

me to sign a statement that I

had been in the rooming-house,

and that I had been with a

woman. I refused to sign such

a statement. They then tried

to get me to sign a statement

that I had been in the room-

ing-house, and that I had been

with a woman. I refused to

sign such a statement. They

then tried to get me to sign

a statement that I had been

in the rooming-house, and

MORNING.

KHJ PROGRAMS INSPIRE

Two Sunday Programs Breathe Spirit of Devoutness;
Appropriate Songs and Sermons Given

BY BEN A. MARKSON

Hymnal fervor and spiritual harmony, orchestrated, made of the two KHJ programs yesterday an offering to divinity, melodious, soulful and sincerely devout. No paean to the power on high can be so well expressed as in music when seeking the heart's deepest measure and the mind's highest thoughts, and it was this attitude that was inculcated in programs given through the courtesy of Maude Reeves Barnard in the forenoon and the Central Christian Church of Pasadena at night.

Maude Reeves Barnard, mezzo-soprano, gave to her singing of "The Holy City," by Adams, a pious fervor and beauty of interpretation that struck a chord unknown to the apostate. It was a vocal visualization of the spiritual habitation prepared for immortal souls.

The entire program, it may be said, weaned itself away from cloistered creed in the intolerant sense and sought for an expression of piety in the medium of melody consecrated to purity.

GIRLS' CHOIR PLEASES
Such was the religious imprint of numbers by the girls' choir. Their singing left an impression of unity of spirit and accord of simple praise. Their anthems were "Consider the Lilies," by Tompkins; "Praise Ye the Father," by Gounod; and "I Waited for the Lord," by Mendelssohn, the latter being led by a vocal duet by Miss Edna Ward and Miss Ruth Abner.

Ruth Abner sang "Great Peace Have They," by Rogers. Her clear soprano voice rose in an understanding of abounding faith and the resultant quietude of conscience. Mrs. Katie Nelson sang a selected contralto solo, lovely in theme and tone. Miss Corinne Little, in a "cello solo," "Angels Borne," by Braga, interpreted with tender bowing the angelic aspect of the composition.

Johnson, tenor, sang "Come, Jesus, Redeemer," by Bartlett, with a pathos of pleading, a beseeching attitude for the light, in a voice that thrilled to the meaning of the hymn and portrayed it in a richness of vocal color.

The accompanist for all of these numbers was Roy Shirey, organist and accompanist. His interpretation of musical trend is coupled with a vivid expression of underlying meanings. Through his playing he gives speech to harmony and invokes ennobling thoughts.

PASTOR INSPIRING
"Go Forward!" was the text chosen by Rev. W. E. McCulloch, pastor of the First United Presbyterian Church. God's word to men from time immemorial. Go forward, not only in the sense of your daily duties, your obligation to mankind, but in spiritual progress, in a constant education of the soul. His words were indelible, of powerful inspiration, and so fluently expressed that the mind became at once a receptacle and a channel of uplift.

This night program, arranged by the Central Christian Church of Pasadena, symbolized the worth of classical music with the sacred atmosphere of lofty strings. It was a synchronization of music and spirit.

Orchestra numbers included "Bombarde March," by O. R. Farar; "Russian Fantasia," by Moe-Tobani; "Three Dances," from Henry VIII, by Edward German, and "Sixteenth Regiment March," by Leroy.

This program was a revelation of musical democracy. It did not cause itself to a staid, staid, full note, rather seeking to blend the joy and usefulness of harmonic entertainment with the respect due a Sabbath occasion. In truth, the most commendable expression of an institution purposed toward idealistic growth.

The orchestra music was of an excellence that provokes eulogy. It caught the note of sheer giving of beneficence, and of enjoyment. Lee Christian, trombone soloist, accompanied by Mrs. Walter Stallfort, played "Water Lilies," by Fiedt St. Falls. The delicacy and

"King Tut Night" at Palm Terrace, Pasadena, was one of the most unique entertainments of the winter for the diversion of winter visitors and others interested. The affair will take the form of a dinner-dance, starting at 7 o'clock, in an Egyptian setting, and with Egyptian entertainment features. Dancing will continue until 12:30 o'clock. Music will be furnished by Waring's Pennsylvania Orchestra. The new Palm Terrace Saturday night. This orchestra will play "King Tut Night" at the Maryland every evening this week. —Advertisement.

It is no effort for Brown and White Cab drivers to be courteous. This answers the question why our men are universally so polite and considerate.

Men reflect the character of the organization they work for. This business is founded on the basis of sincerity and consideration for those we serve.

Courtesy in the Brown and White Cab family is an inbred instinct. We have carefully and deliberately chosen courteous employees. Rules demanding courtesy are invoked but rarely, for Brown and White Cab men prefer the happier mode of business intercourse.

Our men are cheerful and contented, for they make a substantial livelihood. Contentment smooths the path of courtesy and stimulates willing, efficient service.

But occasionally we are compelled to deal with the exceptional case. Rudeness and incivility on the part of one man hurts the entire organization—his fellows more than anyone else.

We sincerely believe that such a man does not now survive on our roster of drivers. If we are mistaken you will confer a favor on that group of conscientious workers who serve you unflinchingly day by day, by writing us a letter.

HARVEY SNODGRASS HUMBLER BILL JOHNSTON IN TORRID NET CLASH

NATIONAL TENNIS ACE LOSES THREE-SET TILT

Brothers Nab Sensational
Set Doubles Finals From
Johnston and Griffin

BY LEMMON BOWLES
Harvey Snodgrass had suggested four days ago that Bill Johnston would have been a star of the Orpheum Circuit as the funniest actor but that's just what Harvey did yesterday, defeating Johnston's second best tennis star, undefeated veteran Danis Cup battles, by the handsome scores of 6-1, 6-2, 6-3.

Snodgrass broke through twice in succession and led at 4-1. Then Johnston broad and took two games. Snodgrass won the eighth game and then when he had Johnston 5-3 he wavered. Twice he had Johnston point match, but wavered. Johnston showed himself a true sportsman on a disputed point, which had been given him by a linesman; he insisted on playing it over.

Snodgrass finally dropped the game and in a flash Johnston had taken the aggressive on his own service and had even matters at 5-all. The players alternated again on their service to 6-all, and then Johnston's service game and then his own, winding up a glorious victory with a clean service ace.

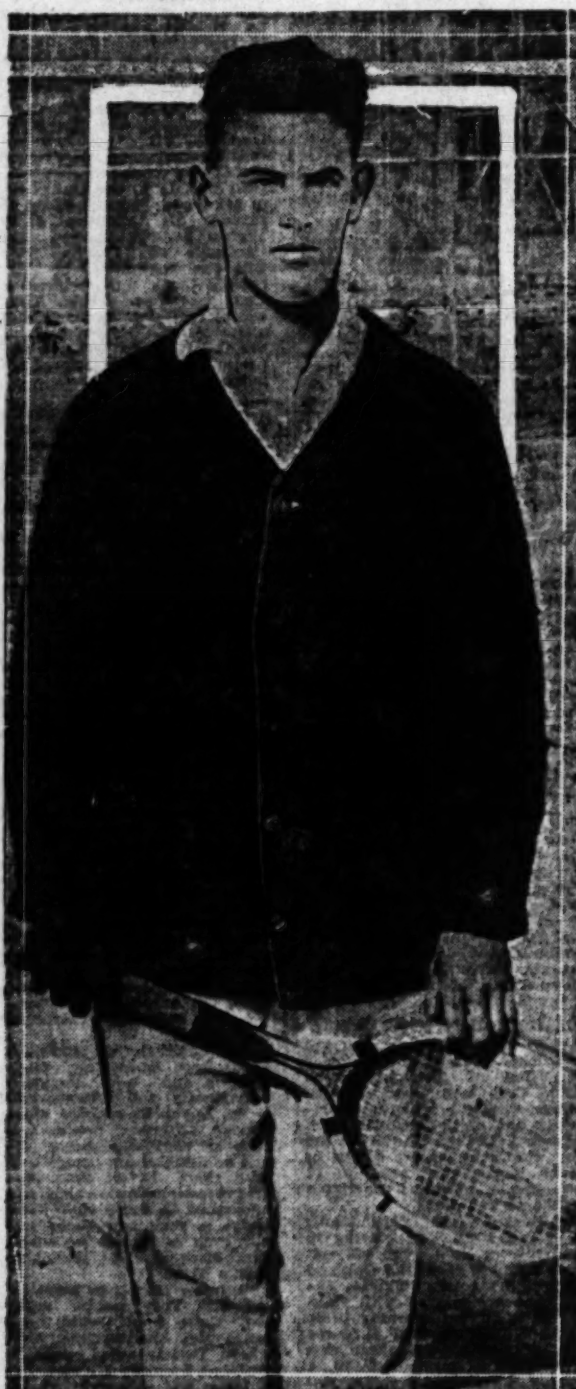

Following is the point score:
Snodgrass..... 6..... 6..... 6.....
Johnston..... 1..... 2..... 3.....

STARTS IN DOUBLES
Following the men's singles match Johnston took a short rest and then took the courts with his old-time partner, Peck Griffin for the men's doubles final against the Kinsley brothers. The result was a sensational five-set encounter that was a thriller for the spectators during the third and fourth sets when Johnston and Griffin pulled themselves together and looked like the one-time national champions.

Space forbids a complete story.

(Continued on Second Page)

Little Bill's Master

Local Star Routs National Ace
Here is Harvey Snodgrass, Southern California champion, who yesterday afternoon treated the fans to a performance of the most brilliant tennis of his career by defeating Bill Johnston in the singles final of the Ambassador Invitational tournament.

BAY CITY GOLFERS ALL AGOG OVER NEVILLE'S OMISSION

BY HAY CHAPMAN
(EXCLUSIVE DISPATCH)
SAN FRANCISCO, March 18.—The announcement yesterday of Robert Gardner's selection of the United States amateur team to defend the Walker Cup in England next May was the subject of considerable discussion today where golfers congregated and particularly at the San Francisco Golf and Country Club, where many members had expected that Jack Neville, the club's champion and also holder of the California amateur title, would be selected.

California will be disappointed at the omission of Neville's name, but have consolation in that Fred Wright, Jr., of the Flintridge Country Club, Pasadena, has secured his place on the team. Moreover, the Pacific Coast is further represented by the inclusion of Dr. O. F. Willing, amateur champion of Oregon.

CAPTAIN RESPONSIBLE
Since a captain is eventually held solely responsible for the fate of the team he leads, it is quite right that he should be responsible for the selection of the personnel. Nor can Gardner fairly be criticized for failure to select any golfer, however great his local reputation, on hearsay evidence only.

Gardner is not only a golfer of great experience—he has run up to Cyril Tolley for the British championship at Muirfield in 1920 and was amateur champion of the United States in 1919 and 1921, but he has been an athlete and sportsman since his heroic years at Yale. Apparently he has solved a very difficult problem by making his own selection only for those whose golf he has observed at first hand.

There will be local observers ready to bet that the last ball that Neville is a more skillful and experienced golfer than Willing of Portland, but the Oregon champion, although his years of golf have been few, proved himself a formidable match player in the national amateur championship of 1921, while Neville has not competed in the East for eight or nine years.

WRIGHT SUCCESSFUL
Those who criticize the selection of Wright over Neville must reflect that Wright was the most successful American golfer on the trans-Atlantic tour of 1921 and also that he rendered a first-rate account of himself in three of the four big championships eastward last year.

Midwick Tigers Trim Honolulu Poloists

LOCAL RIDERS WIN IN RALLY

Island Four Lead to Final
Mallet Battle

Bengals Score Heavy in go
With Rainbows

Hughes-Perkins Combination
Proves Too Fast

Playing one of the hardest-fought games ever seen at the Midwick Polo field, the Tigers, a combination Midwick team, noosed out the Honolulu four by a mere two points. The last chucker in which the Honolulu team and Tigers played was a fast and furious affair. The final score of the Round Robin Tournament was, Tigers 20, Honolulu 18, Fort Bliss 10 and Rainbows 8.

The score from Friday left Honolulu in the lead with 11 points and with the Tigers 7. During today's play the Honolulu four increased their lead with every tilt until it looked as though they would clinch the tourney without any opposition. The Honolulu team trimmed Fort Bliss, 5 to 3 and the Rainbows 3 to 1 while the Tigers had a hard time beating Fort Bliss 3 to 1.

HAVE WALKAWAY
The Tiger four had a walkaway, however, when they played their sister team from Midwick challenging up seven scores to the Rainbows' one. Playing circles around them and running the ball at will Hughes and Perkins scored most of the goals and outplayed Burke and Miller at every turn.

After the chucker the Tigers had a two point lead over the Honolulu team and when these two came on the field the game was all set for a wild and woolly battle, and they got it. Neither team was able to make a score until late in the first chucker when Hughes got away from the crowd and ran the ball single and the length of the field, with Col. Browne right on his heels, to a single-handed goal. Immediately after Honolulu retaliated with a shot from the goal line making the score for the chucker even.

In the second chucker of this tilt Honolulu got another point on a foul and then ceased to score. The Tigers, however, after a couple of hard fights from the goal line succeeded in putting the ball across. This gave them the victory of a 3-2 win over the Islanders and also gave them the Round Robin.

A large crowd was on hand to witness the matches and from the honking of horns and cheering that went up there was a lot of feeling in the air.

The lineups were as follows:

CRUBB'S RECORDS
NEW YORK, March 18.—One of the outstanding features of this year's indoor track season which stands by reason of the frequent shattering of records was that Alfred Krubb's two and three-mile marks should fall. The three-mile distance runner set the records of 9:09.2 for two miles and 14:17.3 for three miles nearly twenty years ago on the West Park grounds, Glasgow and Stanford Bridge, London.

PICK CONFERENCE SQUAD
Tracksters to Meet Stanford Flyers at Palo Alto April 13 Named by Coaches

Twenty-three Southern California Conference track athletes and four alternates were chosen by a committee of coaches recently to make the trip north to tackle the Stanford University cinderpathers in a meet on the Palo Alto oval April 13. It was announced last night by Joseph Pipal, Occidental College coach.

OOH, LA, LA! SUZANNE SHE GEEVE BUNNY SWEET CARESS

BY CABLE AND ASSOCIATED PRESS
NICE (France) March 18.—Unselfish in defeat, Suzanne Lenglen today threw her arms about Miss Elizabeth Ryan, when Lenglen, paired with Count Bourmankov-Ellston, lost the final in the mixed doubles tennis championship to Miss Ryan and Randolph Lycett, 6-4, 7-5.

"You deserve to win," said the French girl. "You played magnificently. One must lose some time, and I prefer losing to you rather than to anyone in this world."

"You realize that I am very short of best playing form and am entirely responsible for our defeat," gently broke in Count Bourmankov-Ellston to Miss Lenglen.

Lenglen and Miss Ryan are the best of friends. They play the women's double and have lost only one set in two years, this to Miss Kathleen McKane and Mrs. Lambert Chambers. In the women's singles Miss Lenglen has met Miss Ryan twenty-three times and has never lost a set to the American girl.

**Riverside Four
Easily Cleans
Up San Mateo**

(EXCLUSIVE DISPATCH)
SAN FRANCISCO, March 18.—Harry East, No. 3 on the Riverside polo team, played another spectacular game this afternoon at El Cerrito field and as a result the San Mateo four went down to another defeat, this time by a 19-to-7 score.

East, rated at eight goals, scored 15 of the 19 points and most of his tallies were made during the first part of the game. There were few plays in the front and at the half-way line. Mounted on Blossoms and Ranches, two of Max Fleischer's fastest ponies, he was all over the field, and when a goal was scored, it was usually East who tallied. He did much to enliven a one-sided game.

San Mateo was backed to four goals today, but the handup was swept away in about ten minutes. Riverside getting started in the game at Burlingame last Friday, jumped right into it today, and the Can Mateo field. At half-time, Riverside was leading, 11 to 3. During the second half, Riverside scored a goal with the outcome a certainty. East scored five of the eight goals for Riverside. Fleischer's team accounted for the other three. Line-up and summary.

SERAPHS ROUT CHICAGO CUBS

Alexander Hit Hard by
Local Baseball Crew

Angels Emerge on Long End
of 6 to 4 Score

Large Crowd Takes in Speedy
Exhibition Game

BY ROBERT E. RAY
"Red" Killefer's Angels put Brother Bill Killefer's Cubs out of the undefeated streak by trimming the Chicago National League, 6 to 4, before a lustrous crowd at Washington Park yesterday.

The Angels looked like a real ball club, while the Windy City squad looked even worse than ever. For seven innings the Cubs batters were held to a lone hit by Tom Hughes and Percy Lee Jones, the latter a Chicago center. Only for a little nobbly fielding and the wildness of Roy Hanna, rookie twirler of the Angels, who pitched the last two innings, the Cubs would have come real close to being whitewashed.

As it was the Cubs managed to get only four hits off of an old-timer, a castoff and a rookie. In the good old days it used to be that each team used only nine men in a game. But baseball, along with the rest of civilization and crime, has advanced to the stage where as many men as possible are thrown at the enemy.

Yesterday the Cubs tossed eighteen men into the fray, while twelve Angels got into the game for more or less brief intervals. Two scorekeepers were knocked out with writer's cramp and a hurry call was made to halt. Later for a strong-armed tally tabulator to score the next exhibition games the Cubs play here.

"King" Coleman, outfielder recommended to the Angels by Howard Lindmore, loomed up like the original fly of the valley in the center garden for the Chubs, bringing down everything that came his way and performing well at the plate. Coleman, Krug, Hood, Deal and McAnally each drove out two hits apiece during the afternoon, while Hartnett was the only Cub to get a pair of singles. Adams, Cub shortstop, pulled the fielding feature of the day in the eighth inning when he dived to catch and mugged Wally Hood's hard liner for the first out with three Angels cluttering the paths.

Grover Cleveland Alexander, who was named after a President and a world conqueror, took on the attitude of the former by hanging the works in the two opening frames worked on the mound for the Windy City. Five hits and two runs were garnered off Alex's shots in the two opening frames.

Coleman started Alexander's downfall in the first inning by beating out a dinky roller down the first base line. Marty Krug laid down a bunt and Coleman reached second and Krug reached first without anything in the way of an out happening. However, Coleman ventured too far away from second and Hartnett's peg to Adams caught him off the bag. Wally Hood sent a single to left, sending Krug to second. Deal rilled out to left and Krug scored and Hood took second and Deal continued to second when Alexander intercepted Hack Miller's throw and tossed

McCabe Grabs the Bletherin' Golf Contest

(BY A. P. MORT WIRE)
DEL MONTE, March 18.—Followers of golf today abandoned the time-honored custom of taking when players make their shots and turned into a retelling, heckling gallery as they followed the "bletherin' contest." "Bletherin," when translated, means that the gallery is privileged to make every manner of noise they can devise.

E. D. McCabe of Brooklyn, won the contest. Frederick C. Porter of Chicago, was runner-up and it required an extra hole of golf to eliminate him.

The golfers, as they were eliminated, were: J. J. Donahue, Los Angeles; J. V. Rittenhouse, Palo

LYNCH RISKS TITLE IN BURMAN BATTLE

(EXCLUSIVE DISPATCH)
CHICAGO, March 18.—With four ten-round bouts on the card, Chicago's boxing fraternity will turn out in large numbers tomorrow to see the big show staged by the American Legion at the Dexter Park Pavilion.

Although each of the contests should be spectacular, the Carter and Handley form a hard pair to beat in the mile and Dagg and Maxwell are a duo to trim in the burlesque. Cliff Argue will handle the sprint, along with Smoot Dagg and Ed Edwards. Also enter the high jump and broad jump. Eaton should be able to cop 6 points in the steeple, while

REPORT SHOWS OIL OWNERSHIP

Status of Union Company is Considered

England, France, Holland in Discrimination

Federal Board Describes Shell Holdings

(EXCLUSIVE DISPATCH.)

WASHINGTON, March 18.—An important report by the Federal Trade Commission to the Senate on the situation of the American oil industry with relation to foreign competition will be published shortly. It was to this report that Secretary of the Interior Fall referred in his decision denying approval of assignments of oil land leases to the Roxana Petroleum Corporation.

It was the evidence contained in this report that Mr. Fall maintained that this ostensibly American corporation, all of whose stock is owned by a Delaware company, is in reality under foreign control, since a majority of the voting stock of the holding company is in the hands of the Royal Dutch-Shell combine, which is British and Dutch in its nationality.

It was likewise on the strength of this report that Mr. Fall took issue with the British Ambassador, who had publicly protested the previous statement of the Secretary of the Interior to the effect that the British policy was one of "excluding Americans from oil lands or placing heavy burdens upon each American or other foreigner in any British oil field."

The United States leasing law of 1920, which establishes the new oil-production policy of this country, provides that "citizens of another country, the customs, usages, or regulations of which deny similar or like privileges to citizens or corporations of this country, shall not by stock ownership, stockholdings or stock control own any in-

terest in any lease acquired under the provisions of this act."

The investigation of the Federal Trade Commission was made in obedience to a Senate resolution of June 29, last year, directing the commission to ascertain the non-American ownership in the shares of the Union Oil Company (Delaware), the Union Oil Company (California), and the Shell Oil Company of California; the relation between these companies, their interest in other United States oil companies, the oil acreage in the United States owned or controlled by leases by these companies or their affiliates; their plans for extension of holdings in this country, and whether Great Britain, the British dominions, Holland, Rumania, or other countries having oil discriminate against American interests with respect to ownership of oil lands or oil shares.

The commission's more important findings may be summed up briefly as follows:

The Royal Dutch-Shell combine, which is a combination of the Royal Dutch Company of Holland and the Shell Transport and Trading Company, Ltd., of England, has acquired a world-wide interest in oil in many lands and in its transportation, this amounting in 1921 to 11 per cent of the total world output. This combination formed a merger in February, 1922, of its principal subsidiaries in the United States, the Union Oil Company, a Delaware corporation, thus forming a new company known as the Shell-Union Oil Corporation, likewise incorporated in Delaware.

SHELL-UNION HOLDINGS

This Shell-Union Oil Corporation now controls over 345,000 acres of oil lands in the United States, together with extensive properties in radiating pipelines, tank cars and marketing equipment and controls about 8.5 per cent of the total of the country's output of crude oil.

The Union Oil Company, incorporated in Delaware, owns about 25 per cent of the stock of the California Company of the same name, but when the acquisition of the California Company by the Royal Dutch-Shell combine was completed, the latter owned 75 per cent of the stockholders of the Union Oil Company, which was in reality an American holding company, and succeeded in keeping the control in American hands.

KNOWS HOLD LAND TRAVEL;
ICE FLOES HAMPER
SAILING

(BY A. P. NIGHT WIRE.)
ST. JOHN'S (N. F.), March 18.—A physician at the Grenfell Hospital at St. Anthony in the North of Newfoundland, lost a month of his three months vacation, the first in three years, because of the storms that have swept the island during the past weeks. From St. Anthony he traveled 300 miles by dog team to Grand Lake, on the line of the Newfoundland Railway.

There he took a train for St. John's. The train was stalled at Arnold's Cove by a snow and ice blockade and there it remained its trip so far having occupied eleven days.

This morning a relief train from this city reached Arnold's Cove with provisions.

The passengers and crew had run out of food yesterday. The vessels now are hunting among the ice fields for seal herds.

The steamer Rosalia from New York and Halifax, reported on her arrival here today that at noon yesterday 10 miles off Cape Race she met the schooner Jean Wake, 51 days out from Brazil to St. John's, and supplied her with food. The vessel was short of provisions and held by the ice pack.

The steamer Glenora and Argyle still are ice-bound on the South Coast unable to deliver relief supplies to the starving settlements in that district.

BRITAIN KEPT ON EDGE BY PRINCE OF WALES

ROMANCES, FOX HUNTING
AND RACING SERVES TO
DISTURB PEOPLE

(BY CABLE-EXCLUSIVE DISPATCH.)
LONDON, March 18.—Two things which the Prince of Wales so far has declined to do continue to cause Great Britain much perturbation. He refuses to make good any of the numerous "engagements" arranged between him and the future "Queen of England" by obliging social gossip, and newspapers, and he will not quit fox hunting, point-to-point racing or steeplechasing.

Attempts to invade the Prince into matrimonial alliances have been abandoned lately, possibly owing to his joking, but reiterated, assertions that he is going to be a bachelor. But now it is stated that he gives up the hazard of horse-manship, notwithstanding his recent record of one or two bad spills weekly. The Prince walked with marked lameness when he attended the Pilgrims' dinner ten days ago—the result of a fall in the hunting field—but he came in first and second in two races a few days later and has since scored another tumble from the back of a galloper in another race meeting.

"As long as I ride you know I am feeling fine," the Prince told solicited friends after his most recent accident.

DEATH DRIVER GOES FREE

(EXCLUSIVE DISPATCH.)
AKRON (O.), March 18.—Gibert Harper, 18 years of age, convicted last week of manslaughter in connection with the death of Mary Fowell, 14, who was struck by a motor truck driven by Harper four months ago, was given a suspended sentence by Judge E. H. Boylan. Harper has been in jail Harper, it was stated in court, had been the sole support of most of his eight brothers and sisters, four of whom are now in the children's home.

NEW THIEFAT PLANNED

(EXCLUSIVE DISPATCH.)
MILWAUKEE, March 18.—A new theater to seat 1500, will be erected at Eau Claire, according to M. Homa, president of the Eau Claire Theater Company. He has just purchased property adjoining the Elks' Club and the new theater will be erected on this site.

RANCHER DIES OF INJURIES

(EXCLUSIVE DISPATCH.)
KANSAS CITY, March 18.—John Marriages, proprietor of the East Canon Ranch, in Kiowa county, near Mulvillie, Kan., and widely known as a stock breeder, died yesterday as a result of injuries sustained in a series of accidents.

SNOW WAS NEEDED

(EXCLUSIVE DISPATCH.)
DIPS (EXCLUSIVE DISPATCH.)
"Worth \$1,000,000" is the unanimous verdict of farmers over Iowa and Nebraska, who visited the Sioux City and Omaha stockyards and cattle markets Saturday. "This heavy snow was just what the crops need," said one rancher, "and we need have no worry now."

SENATOR NICHOLSON TO BE OPERATED ON

(BY A. P. NIGHT WIRE.)
ROCHESTER (Minn.), March 18.—United States Senator Samuel D. Nicholson of Denver, Colo., will be moved from his hotel to St. Mary's Hospital here Monday night, and Tuesday morning will be operated on by Dr. William Mayo at the hospital. It was definitely announced here tonight.

MINNEAPOLIS, March 18.—

Officials of the Crookston Lumber Company, Bemidji, announced the keynote of returning prosperity this week in an announcement that the big lumber mill of that concern would open day and night shifts for the coming season on the 25th inst and from that date the mill will be operated to its capacity during the year.

NEW BUS LINE IN OHIO

(BY A. P. NIGHT WIRE.)
AKRON (O.), March 18.—City Jockey Inspector Enoch announced that a new bus line would be put in operation between Akron, Canton, Doylestown, Easton, Oreville, Smithville and Wooster April 1. The owners of the line planned will make two round trips a day.

NOTICIAS MUNDIALES DE ULTIMA HORA

En el momento de nuestra publicación en esta edición, y para beneficio de los lectores americanos del Times que deseen conocer las últimas noticias de los acontecimientos en el mundo, ofrecemos a continuación un resumen de las más importantes noticias de última hora.

Un acontecimiento principal del mundo es de grandísima importancia en este país, especialmente en el momento, como lo demuestra el hecho de que en Los Angeles solamente hay más de 10,000 personas que estudian los últimos acontecimientos mundiales y nacionales. Para esos acontecimientos está un buen ejemplo leer todos los días esta sección, donde encontrará las noticias y temas más actuales del lenguaje español.

NOTAS TELEGRAFICAS

Noticias de Washington

WASHINGTON, March 18.—El Presidente Harding está en el plan de la Comisión de Asesoría, de comenzar una encuesta relativa a la eficiencia de la ley de aranceles.

Ha despedido al secretario general de la Comisión de Asesoría, de que el Presidente Harding va a ser candidato para un segundo período.

El Ministro de Hacienda ha sugerido al Presidente que los gobiernos federal y locales deben apilar los trabajos de construcción pública hasta tanto que se aplique el entusiasmo por las construcciones particulares.

El Diputado King, republicano de Illinois, censura al "National Republican" por su editorial en que se dice que el senador Brookhart, republicano de Iowa, está fuera del partido republicano.

Todavía está pagando el gobierno pensiones a cuarenta y una viudas de soldados de la guerra de 1911.

El Diputado Ramseyer, republicano de Iowa, recomienda la liquidación de la deuda nacional en un período de veinticinco años, para lo cual va a proponer al próximo congreso un proyecto de fondo de amortización.

Notas de Chicago

CHICAGO, March 18.—Temperatura de cero grados acompañada de nieve, reinaron anoche en el Oeste Central por tercera vez en una semana. Bajo del noroeste del Canadá una cruel onda fría, que visitó nuestros estados de la semana pasada, está empujando la columna termométrica mucho más abajo del cero. Ayer fue visitada la onda fría por el Frente Henry H. Cox, meteorologista, dijo que era excepcional para la época del año. Ayer, que solo duraría uno o dos días, pues viene convergiendo desde el suroeste una segunda y más perturbación meteorológica, que traerá temperaturas más calientes para el jueves probablemente, provocando gran precipitación.

Misteriosa Visita de W. G. McAdoo a México

CIUDAD DE MEXICO, March 18.—William Gibbs McAdoo ha llegado hoy aquí, habiéndose rehusado a indagar la naturaleza de la misión que le trae pero confiriendo en que trata de ver al Presidente Obregon. Se negó igualmente al Sr. McAdoo a hablar de su conexión con el asunto de la deuda de México, y cuando le era aconsejado de la Comisión de Palomas. Dican amigos suyos que él ha superado su sujeto este caso a arbitrio.

NOTAS LOCALES

Misteriosa Atentado Contra un Niño

Calvin Kirby, niño de 11 años, fue encontrado ayer en una pileta abandonada de Lincoln Park, en ausencia de inconsciencia, y probablemente, asesinado. Parece que ha sido víctima del criminal atentado de un maníaco. Tenía el cráneo fracturado, y yacía en un charco de sangre. Ceros se encontraban una piedra manchada de sangre, que pudo haber sido usada como arma. Tenía el rapas la huella de un golpe en el lado derecho de la cabeza y presentaba también una especie de quemadura en la cara. Fue descubierto después de haberse buscado toda la noche, pues había desaparecido desde la tarde del sábado, a última hora, que fue visto por algunos miembros de su familia; se encontraba en uno momento re-

SUPERVISOR DISCUSSES GAS EXCISE

Redlands Man Back From Sacramento Says Tax Will Be Necessary

LOCAL CORRESPONDENCE
REDLANDS, March 18.—George B. Higgins of this city, County Supervisor, has just returned from Sacramento, where he attended a six days' convention of the County Supervisors of the State. Almost the whole time was given over to joint sessions with the State Legislature and discussion of the gasoline and truck taxes. "An absolute necessity if our good roads are to be kept good," the supervisor said. "The gasoline tax will be \$10,000,000 and the truck tax a like sum. It is estimated, and every cent of it will be needed by the county, the State and the cities to keep the automobile roads in good shape."

Alhambra Will Co-operate With Work of County

ALHAMBRA, March 18.—With the object of linking up plans for local development with those to be carried on by Los Angeles county, the Alhambra City Commission has appointed a committee of citizens to work and co-operate with the Advisory Regional Planning Commission, which has just been organized by the Board of Supervisors, to study matters pertaining to highways, flood control and subdivisions.

Miss Cornwall Is Head of New England Society

LOCAL CORRESPONDENCE
REDLANDS, March 18.—The New England Society conducted its annual banquet at the Congregational Church, March 17. Miss F. M. Cornwall, president, presided. About one hundred fifty attended. Officers elected are: Mrs. M. D. Brader, president; Mrs. C. H. Harwood, vice-president; Mrs. R. E. Brown, secretary; Mrs. R. E. Brown, treasurer; Mrs. R. E. Brown, secretary; Mrs. R. E. Brown, treasurer.

Club Members Hear Speaker on City Parks

By a "Times" Staff Correspondent
MONROVIA, March 18.—The most important of the children's playground, according to J. R. Hartnell, for a score of years Commissioner of City Parks at Minneapolis, in the course of an address before the members of the Monrovia Kiwanis Club.

NEW BANK STARTED

LOCAL CORRESPONDENCE
SOUTH GATE, March 18.—A new bank is being organized in this city. It will be the first institution of the kind to be established in South Gate. It is planned to have a capital stock of about \$50,000 and about one-half of this amount has already been subscribed. The largest amounts being taken by William Summers, the new City Recorder; I. W. Lampman, president of the City Board of Trustees; City Trustee C. A. Shaw and C. L. Williams. It is planned to have all the stock subscribed among the residents of the city. The intention of the stockholders is to erect a large building the first floor to be occupied by the bank and another business, while the second story will contain offices, with a large hall in the rear to be used for various meetings.

VENICE OPENS WAR ON DEFICIENT BOND MEN

By a "Times" Staff Correspondent
VENICE, March 18.—Chief of Police McCausland has granted permission for the Board of Trustees to employ an officer whose duty it will be to serve bonds warrants on defaulters who are arrested, released on their own recognizance and who then fail to appear in court. The officer will be served on a commission basis.

NEW CHAMBER PRESIDENT

LOCAL CORRESPONDENCE
SOUTH GATE, March 18.—The Chamber of Commerce has a new president, L. A. O'Grady having been chosen to fill this position. The organization is making a membership drive for the next few weeks.

HAMMER THIEF AGAIN AT WORK

Burglar Enters Two Orange Places; Gets \$2000

Same Robber Worked County Before, Police Say

LOCAL CORRESPONDENCE
ORANGE, March 18.—The hammer burglar, whose daring operations have baffled authorities throughout the county, struck back last night after a lapse of several months when entrances were gained into two local business establishments and the safes looted of approximately \$2000.

REDLANDS MEN ARE AROUSED

Women Collect Nicotine for Killing Aphids by Soaking Nubby's Pipe

LOCAL CORRESPONDENCE
REDLANDS, March 18.—The male population of the city of Redlands is after the scalp of Walter B. Hadley, deputy horticultural commissioner of the county. And while Hadley is to blame for the fact he never expected to be the cause of so much agony among the men folk.

PLAN SYSTEM FACES DEATH

Long Beach Board Needs New Appointments

Citizens Wonder Whether it Will Survive

City Manager Sidesteps Definite Answer

By a "Times" Staff Correspondent
LONG BEACH, March 18.—Will the Long Beach Planning Commission, a quasi-official body of men and women, have to fight for further existence, or will it die the natural death of a body that certain city officials are said to be hoping for?

MONROVIA CHURCH IS DEDICATED

First Presbyterian Edifice Thrown Open to Public Free From Debt

LOCAL CORRESPONDENCE
MONROVIA, March 18.—The First Presbyterian Church was dedicated free from debt this morning. When the service of dedication was started, 125,000 remained to be paid, and though the 400 members had supposedly given the last dollar for the building of the \$100,000 church edifice, they pledged the remaining \$25,000 before completing the ceremony.

Santa Ana's Building Plans Meet Disapproval

Six Districts Give Vent to Wrathful Protest

Assert Bonds Were Foisted on Taxpayers

By a "Times" Staff Correspondent
NEWPORT BEACH, March 18.—Citizens of the six grammar school districts—Newport Beach, Costa Mesa, Del Mar, Diamond and San Juan Capistrano, and the city of Santa Ana have organized to prevent the establishment of junior high schools in Santa Ana. They would compel children from the seventh and eighth grades in the schools affected to attend. A committee composed of Mayor J. A. Schmitzer, Law H. Wallace and J. F. Greeley was appointed today by R. B. Bell, president of the Newport Chamber of Commerce to engage attorneys to file an injunction against the Santa Ana board of education charging that voting \$250,000 bonds by majority of three votes to erect a junior high school building in Santa Ana, was "taxation without representation."

OIL PRODUCTION GROWS GREATER
Great Increase is Shown in World Figures
United States Yield Nearly 65 Per Cent

RARE MINERALS, METALLURGY, CHEMISTRY
The rare minerals, metallurgy, chemistry, and other products of the earth are being produced in ever-increasing quantities. The world's production of these products is growing at a rapid rate, and the United States is producing nearly 65 per cent of the world's output.

A Doubtful Beautifier
LAS VEGAS (Rev.) Feb. 25.—Question: Will you kindly analyze this sample. We use it here for a beauty-clay, and also as mechanical soap. For the first time we use it as a beautifier. It is a little harsh, leaving the skin red and irritated. Is there a poisonous element in it? Thanking you in advance.
Mrs. R. Answer: The sample is not montmorillonite, nor steatite. They react for hydrous silicates of magnesium and aluminum. The sample is probably a silicate of iron and aluminum. The sample is a very doubtful beautifier. It is a little harsh, leaving the skin red and irritated. Is there a poisonous element in it? Thanking you in advance.

The American Petroleum Institute estimates the world's petroleum production in 1932 at 551,540,000 barrels, compared with 755,655,000 barrels reported by the United States Geological Survey for 1931. The increase in 1932 amounted to 34,775,000 barrels, or 11.2 per cent.

The United States produced 551,197,000 barrels in 1932, or 64.7 per cent of the total world production. In 1931 the United States produced 472,800,000 barrels, or 67.7 per cent of the world production. The increase in 1932 amounted to 78,397,000 barrels, or 16.7 per cent.

The most noticeable change in the report shows that 474,000 barrels more went into the tank farm stocks than for the month previous, and that there was a dropping of approximately 300,000 barrels in the shipments of fuel oil and a decrease of 940,000 barrels in the receipts for the field in other lines.

WEST SIDE BUSINESS
There has been a noticeable increase in activity of various kinds in the west side fields of Kern county, which would indicate a revival of oil development. The Pacific Midway Oil Company has contracted for a new oil well. The Marine Boiler Works is said to be particularly active in turning out new work and several contracts have recently been made by the company which would indicate development programs on the part of several concerns.

The Macrot Oil Company has completed the grading of roads to its property recently purchased in the Hovey Hills district on section 35, 32-31. Derrick timbers have been ordered and preparation is being made for the beginning of drilling operations.

The California Well Shooting Company has been organized with a capitalization of \$25,000, the president being A. R. Orchard, P. N. Kaufman, J. T. Gallman, F. Winger, and J. R. Lang.

George J. Hansen, pioneer oil well supply man and operator, has just returned from a trip East and has been in the field near Taft for several days looking after business connected with the Ida May and Combined Oil Companies. Plans are being made to refinance the Hodgman well near Delano.

KERN FIELD REVIVING
With six new oil wells started in Kern county during the past week developments were in hitting a stride which indicates considerable more activity than has been experienced heretofore. This is the fourth of the new wells started for the Pacific Oil Company, two of them being located in the Elk Hills and two in the Midway field.

The same company is redrilling one well in the Midway field and has successfully tested six others. Besides the work on wells the Pacific company has contracted for the construction of a new gas-light roof over a 55,000-barrel tank on its property near Taft.

The Pacific's new wells are the Nos. 31 and 35, located on section 35, 32-34 in the Elk Hills and No. 71 on section 5, 32-34 in the Midway field. The well on section 7, 32-34 in the Midway field is also in the Midway field and is known as the No. 17 well on section 11, 32-34.

FIELD NOTES
Tests for water shut-off by the Pacific Oil Company last week were made in five wells in the Midway field and one in the Elk Hills. The Pan-American Petroleum Company has started work on No. 3 well in the Elk Hills on section 34, 32-34, the derrick having been completed and the drillers already having spudded in.

The Union Oil Company has taken the top crust for its No. 3 well in the Sunset on section 4, 11-23 and is making good progress. The Pan-American Petroleum has started repair work on its No. 10-E well in the Elk Hills on section 1, 32-34.

Two wells in the Midway field belong to the Chancellor-Candfield Midway Oil Company are being deepened. These are No. 16 and No. 23 wells on section 25, 31-32 and section 6, 22-32.

Weekly Field Report Are-Bee Oil Syndicate
Correct to March 17th.
This report is published Monday morning of each week for the information of thousands of ABE-BEE OIL SYNDICATES.

SYNDICATE NO. 1
R. B. No. 11—4227 feet.
A "high-circulation" well with oil—satisfactory progress being made.

SYNDICATE NO. 2
R. B. No. 21—Drilling 2250 feet—sand.
R. B. No. 22 2775 feet—stuck.

SYNDICATE NO. 3
R. B. No. 31—Drilling complete.
R. B. No. 32—Drilling complete.
Now offering ARE-BEE No. 3 for public subscription. Ten acres—4 wells.

Reid and Berliner, Inc.

March 16, 1933.
"Shell Oil Oil Corporation."
A dividend of 25 cents per share on the common stock of this Company was declared on March 14th, 1933. Stockholders of record on March 14th, 1933, are entitled to receive the dividend on or before March 16th, 1933.
James H. Bookmire, Secretary.

Geologist Opens Offices
R. P. McLaughlin, petroleum engineer and geologist, formerly with the U. S. Geological Survey, California, has become associated with J. E. Elliott and F. C. Merrill of this city. He will continue to maintain offices in San Francisco as well as in this place.

PETROLEUM CLUB READY TO START
(EXCLUSIVE DISPATCH)
LONG BEACH, March 18.—With incorporation papers granted at a meeting of the members at the Long Beach Petroleum and Commercial Club will start off tomorrow night at a banquet tendered to the members by T. J. Cannon, prominent oil man and chairman of the club. The hall at the Hotel Virginia will be the scene of the gathering and many of the members of the club will be in attendance. Operators in the Signal Hill field will be in attendance.

Metal Mining and Petroleum

RARE MINERALS, METALLURGY, CHEMISTRY
The rare minerals, metallurgy, chemistry, and other products of the earth are being produced in ever-increasing quantities. The world's production of these products is growing at a rapid rate, and the United States is producing nearly 65 per cent of the world's output.

A Doubtful Beautifier
LAS VEGAS (Rev.) Feb. 25.—Question: Will you kindly analyze this sample. We use it here for a beauty-clay, and also as mechanical soap. For the first time we use it as a beautifier. It is a little harsh, leaving the skin red and irritated. Is there a poisonous element in it? Thanking you in advance.
Mrs. R. Answer: The sample is not montmorillonite, nor steatite. They react for hydrous silicates of magnesium and aluminum. The sample is probably a silicate of iron and aluminum. The sample is a very doubtful beautifier. It is a little harsh, leaving the skin red and irritated. Is there a poisonous element in it? Thanking you in advance.

The American Petroleum Institute estimates the world's petroleum production in 1932 at 551,540,000 barrels, compared with 755,655,000 barrels reported by the United States Geological Survey for 1931. The increase in 1932 amounted to 34,775,000 barrels, or 11.2 per cent.

The United States produced 551,197,000 barrels in 1932, or 64.7 per cent of the total world production. In 1931 the United States produced 472,800,000 barrels, or 67.7 per cent of the world production. The increase in 1932 amounted to 78,397,000 barrels, or 16.7 per cent.

The most noticeable change in the report shows that 474,000 barrels more went into the tank farm stocks than for the month previous, and that there was a dropping of approximately 300,000 barrels in the shipments of fuel oil and a decrease of 940,000 barrels in the receipts for the field in other lines.

WEST SIDE BUSINESS
There has been a noticeable increase in activity of various kinds in the west side fields of Kern county, which would indicate a revival of oil development. The Pacific Midway Oil Company has contracted for a new oil well. The Marine Boiler Works is said to be particularly active in turning out new work and several contracts have recently been made by the company which would indicate development programs on the part of several concerns.

The Macrot Oil Company has completed the grading of roads to its property recently purchased in the Hovey Hills district on section 35, 32-31. Derrick timbers have been ordered and preparation is being made for the beginning of drilling operations.

New Issue

\$2,000,000
Hutchinson Lumber Company
First Mortgage 6 1/2% Sinking Fund Gold Bonds
(Closed Mortgage)

Dated April 1, 1923
Principal and semi-annual interest (April 1 and October 1) payable at the Bank of Italy, San Francisco; Detroit Trust Company, Detroit; and Merchants Loan & Trust Co., Chicago. Bonds are subject to redemption upon 30 days' notice to the Trustee, until April 1, 1925, at 105 and accrued interest thereafter at 1/2 of 1% less each year until maturity.

Detroit Trust Company, Detroit, Trustee
Exempt from Personal Property Taxes in California
Interest paid without deduction for the Federal Normal Income Tax, in so far as lawful, not in excess of two per cent.

From a letter given us by A. H. Land, Treasurer of the Company, we summarize the following information:

ORGANIZATION: Company is organized under laws of California and is the continuation of the Pacific Coast of a business founded fifteen years ago in West Virginia.

PROPERTIES: Company owns approximately 33,400 acres of timber lands in Butte and Plumas Counties, California, about 30 miles northeast of Oroville; a mill site comprising 233 acres on the Western Pacific Railroad 2 1/2 miles south of Oroville, on which is located a modern saw mill, box factory, dry kiln, loading equipment and auxiliary buildings; 21 miles of substantially built logging railroad, of which 15 miles is No. 50 steel and the balance No. 70 steel, and complete electric logging equipment.

The timber, according to cruise made for you by Thomas & Meservy, Inc., Portland, Oregon, amounts to 988,535 thousand feet, distributed as to varieties as follows:

	Thousand Feet	Per Cent
Sugar Pine	270,870	27.4%
California White Pine	141,400	14.4%
White Fir	298,360	30.1%
Red Fir	210,080	21.2%
Miscellaneous	67,815	6.9%

The timber is characterized as an excellent stand. Logging conditions are very favorable. Grades on logs and logging railroads can be extended at moderate cost. Adequate water is available for all logging operations. The saw mill has an estimated daily capacity of 275 thousand feet on single shift. Machinery is of heavy design, electrically driven. All buildings are substantially built and well maintained.

SECURITY: Bonds will be secured by an absolute first mortgage on all property now owned or hereafter acquired. This mortgage in the amount of \$2,000,000 issued by the California Pacific Timber Insurance Company will be made payable to the Trustee for benefit of bondholders. Properties subject to the mortgage have been independently appraised for you by Thomas & Meservy, Inc., as follows:

Stumpage	\$2,789,100
Logging Railroad	830,000
Railroad Equipment	90,000
Logging Equipment	210,000
Mill Site, Sawmill, Etc.	800,000
Total	\$4,719,100

To secure total First Mortgage Bonds—\$2,000,000.

Upon conclusion of present financing, Company will also have \$250,000 in net current assets and, in addition, \$300,000 available for permanent additions and improvements to plant and equipment.

SINKING FUND: Mortgage will provide for quarterly sinking fund payments for redemption or retirement of bonds amounting to \$4.50 per thousand feet of pine timber cut and sold, the total annual sinking fund payments shall not be less, for years ending April 1, than \$25,000 for 1934-1935; \$50,000 for 1935-1936; \$75,000 for 1936-1937; \$100,000 for 1937-1938; \$125,000 for 1938-1939; \$150,000 for 1939-1940; \$175,000 for 1940-1941; \$200,000 for 1941-1942; \$225,000 for 1942-1943; \$250,000 for 1943-1944; \$275,000 for 1944-1945; \$300,000 for 1945-1946; \$325,000 for 1946-1947; \$350,000 for 1947-1948; \$375,000 for 1948-1949; \$400,000 for 1949-1950; \$425,000 for 1950-1951; \$450,000 for 1951-1952; \$475,000 for 1952-1953; \$500,000 for 1953-1954; \$525,000 for 1954-1955; \$550,000 for 1955-1956; \$575,000 for 1956-1957; \$600,000 for 1957-1958; \$625,000 for 1958-1959; \$650,000 for 1959-1960; \$675,000 for 1960-1961; \$700,000 for 1961-1962; \$725,000 for 1962-1963; \$750,000 for 1963-1964; \$775,000 for 1964-1965; \$800,000 for 1965-1966; \$825,000 for 1966-1967; \$850,000 for 1967-1968; \$875,000 for 1968-1969; \$900,000 for 1969-1970; \$925,000 for 1970-1971; \$950,000 for 1971-1972; \$975,000 for 1972-1973; \$1,000,000 for 1973-1974; \$1,025,000 for 1974-1975; \$1,050,000 for 1975-1976; \$1,075,000 for 1976-1977; \$1,100,000 for 1977-1978; \$1,125,000 for 1978-1979; \$1,150,000 for 1979-1980; \$1,175,000 for 1980-1981; \$1,200,000 for 1981-1982; \$1,225,000 for 1982-1983; \$1,250,000 for 1983-1984; News of the Oil Wells and Their Products

SPRINGS FIELD LEADS OUTPUT

Daily Production Exceeds 150,000 Barrels

Gusher is Brought in by Shell Company

Coolidge-Mohawk Abandons Parkford Well

(EXCLUSIVE DISPATCH)

SANTA FE SPRINGS, March 18.

This district has forged to first place among the producing oil

fields of Southern California and is now credited with a daily out-

put in excess of 150,000 barrels. The big production is coming from

the Meyer sand, a sand that is producing high gravity wells and

producers that have a story of the oil reported at 27.5 Beaume.

The Elliott Petroleum Compa-

ny's No. 1 is a striking example of producers. This well has been on

production for two months. Completed at 4495 feet, it started off

at 8000 barrels, the well today is doing 5000 with clock work regu-

larly. The Petroleum Midway's Baldwin, Mattern 2-1, Fox 1 and

the Standard Oil Company's Koonas wells are further illustration of

what the big high gravity pro-

ducers of the Springs field do.

The Coolidge-Mohawk Oil Com-

pany, firm in the belief that the south line of production does not

extend much below the famous Hamilton No. 4, has decided not

to drill the Parkford well. The Coolidge-Mohawk started opera-

tions on the Parkford well three weeks ago and drilled 1000 feet.

TWO SUSPEND OPERATIONS

The north line region of the field got something of a setback

a few days ago, when the Bessie Oil Company and the E. G. T.

Oil companies suspended opera-

tions on the Donkey Land and Shell Company's Hayden No. 1, at

5040 feet, in shell; the Standard's Pacific No. 2 is close to 5100, and

the Brownrigg-Keener No. 2 is getting near the 5100 mark.

Another nice Meyer sand well was completed at the Springs last

week when the Donkey Land and Oil Company redrilled its No. 1 to

4100 feet and returned it to pro-

duction, 8000 barrels of 25-gravity clean oil. This well in the Bell

land failed to make a commercial producer. The return of the Don-

key well was accomplished by the McKee Drilling Company.

The Gaskell Oil Syndicate is a new concern that will try to de-

velop production further out on the north line of the Springs field

than has ever been attempted before. San Francisco and Coolidge

capital is backing the Gaskell Oil Syndicate. The syndicate has

a rig up, and it is the intention to start immediate developments.

PODUCER COMES IN

J. George P. Getty was the recipient of a 6000-barrel producer at the Springs when he completed

well No. 6 at 4548. The well is making 35 gravity oil and is a

splendid addition to the production which Getty has developed in the

past few months.

BEACH WELLS FLOW FAST

Deepest Shaft in State Brings in 4000 Barrels From Depth of One Mile

(EXCLUSIVE DISPATCH)

LONG BEACH, March 18.—Of vast importance, so far as the

future of the eastern frontier of the field is concerned, was the com-

pletion Friday of the General Petroleum Company's Sixty No. 1,

which was placed on production as a 1000-barrel well after the drill-

ing crew had experienced a world of trouble with sand heaving. The

well made a flow by heads four weeks ago, but went off production

when a thirty-foot cement plug dropped to the bottom and

prevented further flow.

These caused two weeks of hard drilling through the cement

plug and a hard sand bridge. Thursday, tubing was run in and

swabbing commenced Friday morning. Shortly after 12 o'clock

soon the flow started and in the following five hours the well

flowed 353 barrels, or at a rate of approximately 1000 barrels a day.

Gravity of the oil is reported at 27.5 Beaume.

The Shell Company brought in two new wells during the week: the Stakemiller No. 2, which came

in late Friday with a flow reported at 4000 barrels, and the Alamitos

Corporation's No. 3, which cut a flow estimated at from 3500 to 3000

barrels a day. The Stakemiller hole is the deepest in California

and it is said that no other well west of Arkansas was drilled as

deep. Located in a portion of the field which, heretofore, has been

regarded by operators as "unproductive," the Stakemiller came in

with a flow estimated at 4000 barrels at a depth of 5011 feet.

DEEPEST HOLE

The Alamitos No. 4, located in the eastern slope area of the field,

twenty-five feet north of the Pacific Corporation No. 16, was

opened up Monday after being drilled a week through lack of

screened pipe. It was drilled to 4200 feet and present production

is said to be merely in the nature of a production test. It is prob-

able that the Shell company will deepen the hole to the 4500 foot level later.

The Garnett Oil Company's No. 1 well, east of Jesse avenue,

Canton street, which was being drilled by Wile and McBride,

blew out Monday while a water test was under way and in a short

time was flowing at a rate of from 1000 to 1100 barrels. The bottom

of the hole is at 1307 feet, the water string having been set at

3243 feet. The test 20 gravity oil was run from the top sand

only. The flow is free of water and emulsion and will be per-

mitted to run as long as it will before deepening is attempted. It

was said yesterday.

Another well to come in during a production test Monday was the

Marine Oil Corporation's Old Pelham and MacKinnon No. 1 on

the 4200-foot level. The well was cleaned out and deepening

started several weeks ago. The hole was carried down to the

4075-foot level and four and three-quarter in black pipe was

landed at 3490 for cementing but

SIGNAL HILL FIELD LIFE PREDICTED

Twenty Years Given as Limit by Eminent Oil Statisticians

(EXCLUSIVE DISPATCH)

The probable productive life of the Signal Hill oil field, now the

foremost producing field of California, will be twenty years, ac-

cording to estimates made here this week by G. V. Steele, produc-

tion statistician for the Crump-Steele Company, a pipe and en-

gineering line organization operating in the Signal Hill field. The

question of the probable life of the region as a producer of oil has

long been a widely debated one. How near the estimate comes to

approximating the truth only time can tell, geologists say.

Mr. Steele's estimates are being taken quite seriously by local

operators, because of his long record in producing fields throughout the

United States. He has been connected with the Union Oil Com-

pany of California, the Union Oil Corporation and other large oper-

ating concerns and has spent several years in study of the physical

side of the oil game.

"Our conclusions covering Signal Hill field were the result of

several months of investigation and study there," Mr. Steele ex-

plained, "and particularly after we had examined the logs of more

than thirty wells.

"The belief that the local field will remain productive for twenty

years is based on the thickness of the sands, saturation of the oil

measures, rock pressures, proximity of wells and comparisons with

other fields in the State.

"The flush production should continue for at least seven years

and at the end of that period there should be at least 40 per cent of

the total production still in the sand. The average well, when

placed on the pump here, after its flush production ceases, should

yield in the neighborhood of 200 barrels of oil daily."

XINCO SMELTING PLANT

(EXCLUSIVE DISPATCH)

TAMPIOCO (Mex.) March 18.—The International Ore and Smelting

Company of Monterey and Saltillo, has notified the government au-

thorities of its plans to place a large zinc smelting plant at Dona

Cecilia, a suburb of Tampico. This company does a large export busi-

ness of zinc ore from its mines in the States of Tamaulipas and

Nuevo Leon.

ENGINEER IN NEW JOB

J. A. Campbell, formerly engineer of gas plants for the Union Oil

Company of California, has re-

signed his position with the com-

pany to become engineer and man-

ager of the plant of the Lomita Gasoline Company.

Keep to the Right!

How often have you noticed those words of caution—an ever-

lasting warning to take care—to play safe.

And daily, too—financial authorities, financial writers and financial

geniuses issue their words of caution regarding investments, warn-

ing you to play safe, to invest your money wisely and safely—to in-

vest in securities combining Safety, Dependable Income and Ready

Marketability.

These features are all combined in our present issue of

Do You Know That—

Type printing, or "letterpress," is far more effective on an antique book paper than on a coated or super stock. The color of the ink is stronger and the absence of glare from the surface of the paper makes for easy reading. When half-tone cuts are used, of course the printing cannot be done on antique stock. Often, however, when there are but few engravings they would look equally well if made into line plates. Not only will you save money, but you will get a far better result.

This is copy No. 7 of a series of instructive ads for the benefit of those who have occasion to plan advertising and printing. Our personal advice free upon request.

TORRANCE OIL MEN ON JUMP

New Production is Expected East of Field

Standard Obtains Shut-offs in Two Wells

Flow is Expected Within Next Week

(EXCLUSIVE DISPATCH.)

TORRANCE, March 18.—Three wells located east of production on Carson street, which are expected to open up new production possibilities for the field, reached the oil sand during the week and are standing cemented. Showings in all three wells are declared to be better than in any of the wells yet brought in at this place.

Two of the wells, Torrance No. 4 and No. 5, are on the Chandler-Campfield Midway oil well, Torrance Community No. 1, is on the Standard Oil lease. Torrance No. 4 is standing cemented at about 1000 feet and Torrance No. 5 is standing cemented at 3000 feet. There appears to be a slight easterly dip in the field at the point where these wells are being drilled, and while others immediately to the west were put on production between 1000 and 1500 feet it is possible that the new wells may have to go below 1000 feet.

The steady improvement in gravity and production that has been shown as the wells go east is thought to indicate that the new wells should have a settled production of at least 1000 barrels and gravity ranging between 27 and 30.

The Hub Oil Company's effort to Torrance No. 5, on the north side of Carson street, is nearing the oil sand and is expected to be ready to cement within a week or ten days.

The Chandler-Campfield Midway Oil Company has increased its drilling activities along Carson street, spudding in Torrance No. 6, and building the rig for Torrance No. 7. Torrance No. 6 offsets Torrance No. 1 and Torrance No. 7 offsets George F. Getty's No. 1.

On the west end of the field, the Standard Oil drillers succeeded in getting a water shut-off in both Torrance No. 1 and Torrance No. 2. Both are expected to be put on production within the next seven days.

TWO LEASES CLOSED

W. M. Kech closed two small leases during the past week.

On an acre and half tract north of Carson street and the other on a two-acre block lying on Arlington street.

On the latter lease one acre was taken over from the Standard Oil Company. The bonus for the two acres amounted to \$3000 and the royalty one-sixth. On the acre and half lease a bonus of \$2000 was paid and the owners given one-sixth of the oil.

Considerable leasing activity was reported during the week by property owners in the district between Torrance and Carson street. The Standard Oil Company was two of the companies that were active in this locality.

While negotiations were said to have been started for other acreage by the Universal Consolidated Oil Co., Rice Ranch Oil Company, Santa Maria and the Lake View Oil Co.

TRINITY RIVER FOLK OPPOSE WATER PLAN

(BY A. NIGHT WIRE.)

WEAVERVILLE, March 18.—Opposition to the proposed diversion of Trinity River through a tunnel into Shasta county and down into the Sacramento Valley for irrigation purposes was voiced in a resolution adopted by the Trinity county supervisors.

They all signed their intention to fight the proposed plan at a public hearing to be held before the Federal Power Commission at Redding on the 21st inst.

Such a plan, the resolution read, would materially affect Trinity county, if granted. The proposed project has been launched by W. H. Sampson and associates of Corning.

MARCH 19, 1923.—[PART II.]
SALTON SEA

BY GILBERT E. BAILEY, F.R.S.

University of Southern California

The Salton Sea is a unique inland

lake, as fresh water flows into

it from the Colorado River, and

it is not connected with the ocean

by any navigable waterway. The

region is a part of the Colorado

River delta, and the sea is a

result of the fact that the river

has cut a new channel for itself

and has abandoned the old one.

The sea is a body of water

about 100 miles long and 10

miles wide, and it is a

very important part of the

Colorado River delta.

FIGHT LOOMS
ON LYON BILL

Legal Talent Plans Battle at

Sacramento

Riverside District Attorney

Tells of Evils

Calls Measure Grab by City

of Los Angeles

When the so-called Lyon bill,

known as Senate Bill No. 503,

is considered by the Judiciary Com-

mittee of the Senate the early part

of this week an array of legal tal-

ent will be in Sacramento to fight

it. District attorneys of many of

the southern counties and a num-

ber from the central counties of

California left last night for the

State capital to attend the hearing

and to strenuously oppose the bill.

That the bill would give to the

Los Angeles Bureau of Power and

Light a monopoly of the water

rights throughout the southern and

central counties is the crux of the

argument to be offered by the op-

ponents.

The bill was drafted by Mr.

Mathews, special counsel for the

Board of Public Service, and it

proposes to do so by giving the

board the power to take by con-

demnation for their own use any

operating public utility property

held by a private corporation and

devoted to supplying service to an-

other community.

CLUB FUNDS
ENDS TODAY

Hollywood Studio Campaign Enters Last Lap on Way to New Building

With a final rush of subscriptions expected, the Hollywood Studio Club's new building campaign enters its last lap today. The success of the drive, which began the 15th inst. is expected to depend to a great degree on the result of Monday's soliciting which will be carried into every business, residence and studio section of the city.

Decision on whether the \$150,000 quota, set for the construction and furnishing of the new building, is attained will be held among workers of the campaign at 6:30 o'clock Monday evening at the Masonic Temple, Hollywood. While the leaders in the drive declared that they expected no difficulty in going "over the top," workers were urged not to relax their efforts. Numerous large subscriptions were expected to be reported from local organizations, the headquarters of which are located in the East.

A Few Suggestions:
Three Meals a Day
for \$1.25

(Not fixed menus, but typical examples of mealtime combinations where you can obtain the most of the best for the least.)

BREAKFAST—Two fresh ranch eggs, boiled or fried; two large pieces of golden brown buttered toast and a cup of Boos Bros' excellent coffee with pure cream.9.37

LUNCHEON—Soup, lamb stew with vegetables, bread and butter, large cup of delicious apple pie (the bakery-kind), and a cup of Boos Bros' excellent coffee with pure cream.44

DINNER—Vegetable soup, baked or fried fish (two obtain our fish daily direct from the ocean), hot biscuit and butter, delicious home-made cake, pot of tea with pure cream.50

Scot Tissue Towels are now

available in 40 inch, 48 inch, 54 inch

and 60 inch widths. They cost less by the case

than ever before. The entire line is now in five, ten

and fifteen pack sizes. They are made of the finest

Your Health is at Stake if You Suffer from Constipation!

Every man, woman and child who has constipation or constipation symptoms should leave no stone unturned to get instant relief! Keep away from the dangers of pills and cathartics, which are almost as much to be dreaded as constipation itself. Your physician will recommend Kellogg's Bran because it is ALL BRAN—and it is Kellogg's Bran that will give permanent relief if eaten regularly.

Most cases of Bright's and diabetes can be traced to constipation; in its milder form constipation is responsible for sick headache, nausea, pimples, sour breath, etc. And, we say right here—and guarantee what we say—that Kellogg's Bran, if eaten regularly, will give you permanent relief.

Kellogg's Bran is wonderful as a

food as well as wonderful as a natural means of relieving constipation. Kellogg's Bran contains important mineral salts; it contains elements that are necessary in making bone, tissue and blood—yet, it acts as a sweeper, cleanser and purifier.

Eat Kellogg's Bran as a cereal. You'll enjoy its nut-like flavor. Or, sprinkle it on or mix it with hot or cold cereals. Many like it cooked with hot cereals. Two tablespoonsful of bran should be added in each other bakery batches. Recipes on every package. Prominent hotels, restaurants and clubs serve Kellogg's Bran in individual packages. All grocers sell Kellogg's Bran.

This design is the international identification mark for genuine Ripolin Enamel. All Europe knows this famous Ripolin trademark. The secret process of making Ripolin was discovered in Holland thirty years ago. Since that time Ripolin has been used throughout the civilized world.

Ripolin Enamel can be obtained in Gloss White, Semi-Gloss and Flat White. It can also be supplied in seven delicate tints by any of the following dealers:

People and Their Trouble Stories

THE LAST WORD. BY ALMA WHITAKER

Yet I know, dear! I mean to want to live on this subject. It's the worst. You see, I want to see Lillian Burkhardt Goldsmith at Pantages in a playlet by Ruth Comfort Mitchell, entitled "Mother's Right Here." And both Ruth and Lillian are brainy women. Ruth has written some mighty good highbrow stuff. Lillian is the president of a big woman's club and has become prominent as a lecturer on the higher literature and drama. Altogether they both stand for culture, for intellectual subtlety, for feminine superiority in the department of intelligence.

But since seeing that play I am entirely sympathetic with the film makers and their hokum. It comes to me that a successful Pantage tour, these ladies have to descend to the ultimate hokum and despite of hokum, how can we expect mere movie producers and directors to achieve anything more intellectually and artistically worthy?

This playlet is all about a nice conservative mamma (Lillian) who is confronted with a fearful specimen of violent hokum in the person of her own young daughter. The daughter, who is a very short dress, with stockings rolled down, smoking cigarettes, and carrying a hip flask and a stick, for frequent alternate use. And there is a bold, bad motion picture villain who picks up on the trail, with whom she has a date that evening.

Girls are unthinkably bold and vulgar, mamma is distressingly shocked. But, oh, mother is right there. In the twinkling of an eye she decides upon a rescue. Being a peculiarly cautious mamma she has a jolly expensive dress and a \$10,000.00 diamond necklace ready for an occasion like this. She makes the quickest change on record and is all dressed like a ramp daughter's old, bad, villainous beau when he calls for daughter. Mamma even has a hip flask on hand. And the cutest little cigarette case.

And so of Lillian's club members went to the theater to see her achieve that enshrining triumph. They cheered to the echo when Lillian came on in that gown, when she lit her cigarette, when she accepted the villain's cocktail, when she, when she cocked one leg over the other and showed her rolled-down stockings and her knees, just like daughter, they raised the roof with hilarious applause.

The bold, bad, beautiful mamma right off the bat. Daughter sees, and listens in the offing, while the brute belittles her youthful charms.

And it is a fine ecstatic moment when mamma throws off her villainous what she thinks of him. He is properly ashamed and orders out of the house—just—ahem—as he should have been before mamma contributed further to the poor man's deinquency. I was conscious of genuine sympathy with that wretched villain. The lady did not play square.

But—in the playlet—that cures daughter. Now isn't that sweet! And—ahem—let's it an alarming thought that Ruth and Lillian should have decided that mamma's apparent demoralization, temporary though it was, should be the best effective cure for nasty vulgar little daughters? How unutterably staggering if all the women who gaze up to Ruth and Lillian as the intellectual queens of our sex, start in using this method of curing hokum in the family. I don't believe papa would like it at all. In fact, if papa as well as daughter had been peering round that curtain, he might so reasonably have misunderstood. Mamma was so thorough. And she never belittled. She showed her knees—and a very good knee, too—with all the same care-free abandon that daughter ever did.

However, it all ended with a nice little moral. The villain, as the Von Stroheim and Cecil De Mille versions of jazzmania. We were given to understand that mamma had stooped to conquer, as it were.

There was certainly a lesson there for reckless daughters. Oh, girls, just look what can happen to mamma when you let them take a bad example! They take to it like ducks to water—and can go you one better every time.

What was it, Peter? Kyrne said about hokum? What is it that

Questions Answered

Question: How long has mah jong been played? J. J. McEl. Answer: This Chinese game is approximately 2000 years old. However, it has but recently become popular in the United States. Q: Who originated the American Beauty rose, and where? I. C. C. A: George Hancock, horticulturist, Secretary of the Navy, and enthusiast in horticulture, resided at 1221 H street, Washington, D. C., and in the garden to this residence the popular "American Beauty" rose originated. Q: What was the origin of the word playmate? R. D. S. A: The term, playmate, is probably from the French word playmate, an old copper coin of Piedmont, worth a fraction of a cent. Q: What is the real estate in New York City worth? C. S. A: In 1932 the real estate in New York City was valued at \$10,460,592,816. Q: What is the largest postage stamp ever issued? A. G. A: The Post Office Department says that a \$5 United States postage stamp has been the largest ever issued to the public in this country. There have been \$100 stamps issued pure for official use. Q: What is the value of the various collections in the Corcoran Gallery of Art? G. R. P. A: The collections are estimated to be worth over \$1,500,000 and are particularly representative of American art. Q: When was the 14-inch gun first used in the Navy? F. T. K. A: It was tested at Indiana Road Proving Grounds in December, 1909. Q: How many miles per year does the sun travel in its orbit carrying the solar system with it? T. F. J. A: From the researches of various astronomers, it has been determined that the cosmic linear velocity of the solar system is twelve or thirteen miles per second. This is equivalent to about 400,000,000 miles per year. The solar system is traveling in the direction of Vega and it is estimated that it will reach that point in 40,000 years.

CONGRESSMEN TO BE FETED

Busy Time Ahead for Arid Lands Committee When it Arrives in Los Angeles Thursday

The complete program for the entertainment of the Congressional party on Arid Lands and Irrigation, which arrives Thursday, after a long tour and inspection of the Colorado River project, has been arranged by the Mayor's committee and the special entertainment committee of the Los Angeles Chamber of Commerce, John W. Kemp, chairman.

The program is: Thursday, 10 a.m.—Reception at the Alexandria, Mayor's committee, Chamber of Commerce officials and prominent citizens; 2 p.m., auto trip about the city, through the industrial district and through Alhambra and Pasadena; Huntington Hotel for lunch; 6:30 p.m., dinner, guests of the Pasadena Chamber of Commerce.

Friday—9:30 a.m. to 11 a.m., tour through Van Nuys and San Fernando Valley; 11:15 a.m., guests of Los Angeles Chamber of Commerce at luncheon at White House, South Flower street; speakers, Senators Norris and Ashurst; Congressman Smith, chairman of the Irrigation Committee; Congressman Sinnott, chairman of the Public Lands Committee; Congressman Crump, chairman of the Appropriations Committee; Congressman Phil D. Swing, in charge of the party; 2 p.m., special visit to United Studios, and participation in moving pictures. In the morning all ladies of the party will be entertained by Mrs. George E. Crayer and Mr. and Mrs. W. F. Walcott at Van Nuys.

Saturday—9:30 a.m., inspection of Los Angeles Harbor in steam launch, afterward motor trip to Long Beach to be guests of the Long Beach Chamber of Commerce at the Hotel Virginia; 2 p.m. return to Los Angeles.

At the last trial, the jury found that the bank had lost \$100,000 as a result of the fire.

Union Company's Storage Basin to be Erected in Santa Fe Field

Surveys have been completed by the Union Oil Company of California for a 750,000-barrel cement reservoir in the Santa Fe Springs field.

The reservoir will be on the Sanchez lease in the northern section of the district. Work, under the direction of Geary Neal, resident engineer, will begin at once.

The importance of the storage problem in the Southern California oil business is illustrated by the fact that with this reservoir the Union Oil Company will have under construction in this vicinity eight cement reservoirs with a total capacity of 5,000,000 barrels of oil.

Less than a year ago not a cement reservoir was to be seen in the oil fields south of the San Joaquin Valley, while the biggest steel storage tanks in use in oil fields west of the Rocky Mountains were 55,000-barrel containers.

Since that time, the Union alone has purchased thirty 80,000-barrel steel tanks, twenty of which were allocated to Southern California. The majority of these are already in use at the Los Angeles refinery and at different stations along its Los Angeles pipe line. The purchase of more of these huge steel tanks is being considered.

They sat at a safe table. The poet was soaring. He talked of the mighty poets of the past. His friend, avoiding the eye of the waiter, had little to say.

"Um," said the other. "I wish Burns and Keats were with us tonight," declared the poet. "That would be a meeting."

"Um," mumbled the other again. "I wish Burns and Keats were with us tonight," declared the poet. "That would be a meeting."

"Um," mumbled the other again. "I wish Burns and Keats were with us tonight," declared the poet. "That would be a meeting."

SOCIETY

Going Abroad

Mrs. William Henry Brophy of South Rosemont avenue, accompanied by her nephew, Jack Cunningham, is leaving on the 22nd inst. for Paris where she will meet her niece, Misses Isadore, Ellen and Florence Cunningham. After four months abroad Mrs. Brophy will return to Los Angeles. During her absence Mr. and Mrs. Frank Chisum Brophy will occupy the home.

Bridge-Luncheon

The Hotel Virginia at Long Beach furnished the setting for a charming affair Thursday when Mrs. E. H. French and Mrs. J. H. Williams, two well-known Long Beach matrons, entertained with a beautifully appointed luncheon and bridge party. There were more than 100 guests seated at small tables decorated with bowls of spring flowers. Luncheon motif was the use of seven different colors, orchid, pink, green, heliotrope, yellow, rose and white, each table being done in one color with all the appointments carrying out the chosen shade. A game of bridge followed the luncheon.

Arrived From England

Mrs. Thomas E. Harding and Miss Patricia Harding, after an absence of two years in England and on the continent, have returned to Pasadena where Mrs. Harding is planning to build a home.

Springtime Event

One of the spring-time luncheons of Wednesday was given by Mrs. N. B. Woodruff of Heliotrope Drive, with a game of bridge during the afternoon. There were fourteen guests and the house and tables were decorated with a variety of spring blossoms. Mrs. Woodruff was assisted by her two daughters, Mrs. E. H. Nudye, Mrs. Marie A. Fox of Long Beach.

Engagement Announced

The coming marriage of Miss Irene Quinlan of Hollywood to Lester P. Pryor of Hollywood is announced. The wedding will take place early in April.

Dinner Preceded Ball

Preceding the St. Patrick's ball at the Raymond Saturday evening, Mrs. George V. Varity of Ohio and his daughter, Mrs. Newman Eberole, entertained at dinner, the company including Mr. and Mrs. John H. Strongman of New York City, Mr. and Mrs. Arthur J. Secor of Toledo, Miss Eloise Borden of Lafayette and Miss Dorothy Kellogg.

Mr. and Mrs. Joseph H. Frantz of Columbus, O., who are spending the season at the Raymond, had ten guests at dinner Saturday evening, afterward attending the St. Patrick's ball.

Birthday Party

Mr. and Mrs. Arthur S. Westfall gave a delightful birthday dinner on Friday, at their home on South Serrano avenue, to compliment their granddaughter, Miss Marjorie E. Childs, formerly of South Orange, N. J., now attending the Marlborough School for Girls in Los Angeles. The occasion was Miss Marjorie's 16th birthday. The birthday cake was decorated with sixteen candles and sixteen pieces of money. There were guests from South Orange, N. J., New York, Riverside and Los Angeles.

At the Mary Louise

Dr. and Mrs. R. W. Miller, of 1141 West Adams street, gave a dinner Friday evening, at the Rose Room of the Mary Louise. There were thirty guests. St. Patrick decorations consisted of green baskets filled with white sweet peas and freesias, and crystal candlesticks with green candles and green tulle shades.

Mrs. C. L. Post of the Maryland Hotel, gave dinner and bridge party on the 18th inst. in the Chinese Room of the Mary Louise. There were twelve guests and the room was beautifully decorated with spring flowers.

Mrs. Walton of the Shoreham Hotel gave a luncheon and card party on Tuesday. There were ten guests.

Mrs. H. J. Whitley of Whitley Terrace gave a luncheon and card party in the Flower Room of the Mary Louise, on the 18th inst., in honor of her sister, Mrs. Edward C. Smith of Minneapolis.

The room was decorated with baskets of red roses and on the table were kites dressed to represent motion-picture stars. Guests were: Mrs. Edwin Sherer, Miss Kelly, Franklin Nichols, Willis Anderson, P. W. Steith, Fay Wood, George Morrill, J. C. Brown, Ridley Taylor, George Crenshaw, Charles Ruppertsberg, Enoch Pepper, James Ballagh, Harry Furman, E. R. Warner, the Misses Nellie Walden, Madeline Purdon and Elizabeth Pepper.

At the Ambassador

St. Patrick's night was celebrated in true Irish style at the Ambassador Saturday evening. Following are some of the guests entertained with parties: Mr. E. W. Alton, Mr. E. B. Baker, Mr. C. H. Foster, Mr. A. Irish, Mr. L. E. Kent, Mr. A. Mayer, Mr. Edwin Miller, Mr. L. A. McConnell, Mr. J. E. Chis, Mr. L. S. Butler, Mr. P. Brodfield, Mr. P. Cox, Mr. Frank Hutchinson, Mr. R. E. Kelly, Mr. B. E. Lewis, Mrs. Joseph Schenck, Mr. Sam Behrendt and Mr. N. H. Brodfield.

"A Night in Vogue" will be the name of the Tuesday evening party at the Ambassador Saturday evening. The table favors will be vogue dolls and spring decorations will be featured. Among those who have already made reservations are Mr. P. W. Bromel, Mr. J. D. Farrell, Mr. C. B. Hayes, Mr. Tom Mix, Mr. E. H. Simpson, Mr. A. Cline, Mr. K. Farrell, Mr. F. C. Kramer, Mr. J. S. Moss, Mr. P. F. Spillies and Mr. F. V. Torrence.

Bridge-Luncheon

Two delightful events of Thursday at Sunset Canyon Country Club were bridge-luncheons by Mrs. E. Kramer of North Normandie avenue and Mrs. A. G. Rehtmeyer of Burbank. Mrs. Kramer was hostess to sixteen guests and Mrs. Rehtmeyer had a group of twenty-five friends at her tables.

Mrs. A. L. Ferguson of Glendale has arranged for a luncheon and bridge party next Thursday for thirty-four guests.

Mrs. L. W. Boden of Pasadena entertained on Wednesday with a most enjoyable luncheon at the Sunset Canyon Country Club for sixteen guests. Following the luncheon bridge was played.

FOX PLANS NEW FILM SHOP

Palatial Studio Building to Be Most Complete Cinema Factory in Existence

A mammoth new studio which will surpass in size, modernity and utility any motion picture producing plant now in existence, will be erected by the Fox Film Corporation in Los Angeles this summer, Winfield R. Sheehan, vice-president and general manager of that company, said yesterday.

The new move has been prompted by the fact that the fifteen-and-one-half acre site of the present Fox studio, on Western avenue and Sunset boulevard, which was bought only six years ago for \$125,000, is now valued at \$1,250,000. This valuable Hollywood property may be sold, but in all probability the Fox organization will keep it, raise the studio buildings, and replace them with stores and apartment-house structures.

This new studio will be a monumental structure and will be the home of all William Fox production activities on the West Coast. Mr. Sheehan stated that \$300,000 had been set aside as a building fund by the corporation, and that construction will be started this summer. Several sites, each consisting of upwards of 200 acres are under consideration, and negotiations are being conducted by Bauer, Wright & MacDonald, Los Angeles attorneys.

Spanish architecture will prevail in the new building, which will be of ornamental beauty, as well as adapted to the purpose of producing motion pictures under the most modern methods. Construction engineers and architects are now drawing up plans for the new plant, which will have the benefit of all present improvements in studio construction and will embody, as well, many features not existing in any studios now built.

Prominent among these will be a system by which fire hazard will be reduced to a minimum. The building will be equipped through-

\$250,000

will as the scenario staff, will present many innovations. Here, too, will be spacious dressing-rooms furnished for every comfort. Each room will have a private bath, and in addition, there will be a large plunge with heated water and hot and cold shower baths. A fully equipped gymnasium, tennis courts and handball court will be conveniently situated near by. In fact, the old greenroom idea will be adapted to the conditions of the modern motion-picture studio, with lounge, reading, writing and rest rooms, in which the artist may find comfort, recreation and rest.

John C. Elsie, prominent New Jersey banker and treasurer of Fox Film Corporation, has been spending several weeks in Los Angeles in connection with the projected new studio and investigating the possibilities presented in the utilization of the present Fox studio tract for commercial purposes.

COMPLETE LABORATORY
The establishment will include a complete laboratory, equipped with up-to-date machinery for the development and handling of negatives and for the production of positive prints in great quantity. It will include an experimental department in which research work will be conducted for the improvement of photography, printing, toning and perfection of machines used in the various processes.

Under the care of dress and style experts, there will be an elaborate costume department, plentifully supplied with costumes and production accessories, which will be gathered from domestic and European markets. A millinery department is one of the novelties planned. A complete suite of baths, dressing-rooms, hair-dressing parlors and an emergency hospital are included.

There will be a research department, embracing a large reference library. A spacious restaurant, which will be served by a sanitary kitchen, equipped with modern utensils and appliances similar to those in use in the best hotels, will be installed for the convenience and comfort of workers at the studio.

Every provision will be made which will look to the players' comfort. Dressing-rooms for the important actresses will be built en suite, with spacious sitting-rooms and separate rooms for maids, toilet and bathrooms equipped with every convenience; a cosmetic parlor will be near by; telephones will connect the important dressing-rooms with every part of the studio grounds. The building which will house the headquarters of the actors, as

HOUSE ROBBED

Every Room Ransacked As Couple Flees Program: See How Taken

The test of the sincerity of an institution is whether it tells its demerits as readily as its merits. So here goes.

A few nights ago, KJL, The Times' radio broadcasting station, brought a daughter to her mother's bedside and aided, undoubtedly, in saving the latter's life. But last night it was of unwitting assistance to burglars.

While Owen Reddy and his wife, who live at 3310 Olsson street, were listening to the radio concert, burglars visited every room except the one they were in. "They took everything valuable but the radio set," Mr. Reddy told the police. The plunder, according to the victim, consisted of watches, jewelry and money.

The latter corporation to put these days into picture production immediately upon the conclusion of their New York run.

John Galsworthy's notable play, "Loyalties," which has been one of the outstanding successes of the present New York dramatic season, is another property recently acquired for Fox productions, Mr. Sheehan announced.

In May or June, Fox will start the production in Los Angeles of "Six Cylinder Love," William Anthony McGuire's comedy, which, originally produced in New York last season, is still running and has proven one of the biggest stage successes in the last twenty years. Rights have also been secured to "It Is the Law," which has been

FILMS CALL DEBUTANTE

Helen Daniels, daughter of the ex-Secretary of the Navy, has become a motion-picture actress. Miss Daniels made her debut before the camera at San Diego for the Goldwyn production of "Red Lights."

In the camera focus when the daughter of Josephus Daniels did her first scene under direction of Clarence G. Badger, was a party of society folk from Coronado. There were Lucille Wild, daughter of the former San Diego Mayor, Mary Gorgas, whose father, Gen. Gorgas, helped build the Panama Canal, Lady Chesney, and the Misses

running all season in a Broadway playhouse, and which is another melodrama success by Elmer Rice, author of "On Trial."

Production has already been started in New York on one of two David Belasco dramatic successes, to be made into pictures by Fox. The first of these is "The Warrens of Virginia," which is being made under the direction of Harry Millard, who staged "Over the Hill," and "If Winter Comes," the other Belasco play soon to go into production is that well-known drama of American life, "The Governor's Lady."

"Hoodman Blind," from the pens of Wilson Barrett and Henry Arthur Jones, will also furnish notable material for screen use. Popular novels of recent years which have headed the list of best sellers are also represented in the material purchased. Pre-eminent is the Fox motion-picture version of A. E. W. Hutchinson's novel, "If Winter Comes," the making of which picture occupied one entire year in production work in England and America. This picture, now completed, is being prepared for a New York run.

NOVELS PURCHASED
"Genie Julia," Booth Tarkington's hit, and "The Shadow of the East," a popular success by E. M. Hull, author of "The Shrike," are two of the literary properties soon to go into production.

The production of "The Fool," Channing Pollock's play, which is the dramatic success of the present New York season, will not be

Scripte. The entire party joined the "Red Lights" company on a location trip to Carlsbad, N. M. Miss Daniels admitted she had previous screen experience. It consisted of posing for news reel photographers. They were judges neither of dramatic ability nor beauty, she says, and charges that she was never given an adequate chance in the news reels to show what she could do.

Should Miss Daniels come to Hollywood as a professional she will be met with a salute from a battery of eight-inch lenses. Film folk promise.

Other pictures to be released next year, production of which has been completed, include "St. Mingo," a picture version of the "Stage Success" presenting John Gilbert and Barbara La Marr. "The Shepherd King," Wright Lorimer's great dramatic classic, the motion-picture version of which was staged in Egypt and Palestine, by J. Gordon Edwards, director of "The Queen of Sheba," "Mons Vanna," a poetic drama said to be the most beautiful picture ever produced in Germany, "The Eleventh Hour," a melodrama of thrills and rapid-fire action, directed by Bernard J. Durning, featuring Charles Jones and Shirley Mason, and "Hell's Hole," a western adventure story, by George Scarborough.

Mr. Sheehan said that J. Gordon Edwards is now working in Panama on what promises to be a big dramatic melodrama of American naval and official life, which will also be ready for release in the new season.

Jack Ford, Fox director, will soon begin production at Los Angeles of the picture version of "Campeo Kirby," the stage success from the pens of Booth Tarkington and Harry Leon Wilson. A race track drama will embody James P. Sinnett's story, "The Blue Boy."

Four Miss will start special productions on two of Zane Grey's novels, after the completion of his present comedy drama in which the horse, "Tony," again has a big part.

Charles A. Bird has resigned as business manager and casting director of the Fox West Coast Studios. Mr. Ben Jackson succeeds him as business manager, and Arthur Ford will today assume the duties of casting director.

THEATERS OPEN
Mr. Sheehan announced that the first William Fox theater in California will be opened about May 1st. This is the new theater in Oakland, a beautiful structure seating about 2000 people and said to be one of the finest motion-picture theaters on the Pacific Coast.

The Fox Philadelphia theater, which is now under construction and which is expected to open on September 1st, will have 170 seats and an adjacent office building of eighteen stories. In addition to this, construction work will be started during the summer on Fox theaters in Chicago and Boston, sites for which have already been procured.

The completion of these new theaters will bring the total of the Fox circuit up to fifty theaters. Mr. Sheehan said that William Fox is opening this month distribution offices in Cuba, Mexico, Holland, Czechoslovakia, and Japan. Through these branches Fox films will be distributed directly to exhibitors throughout every country in the civilized world. The erection of the new offices brings the total to 117 Fox distribution branches.

Theater's Fame Will Be Spread Through Land

Practically every hotel owner and manager in the United States will be able to tell his patrons of the wonders of Grauman's Hollywood Egyptian Theater after next summer, for those in charge of the preparations for the reception of the bonanzas at the annual convention here in June have made plans to entertain them at Grauman's Hollywood Egyptian Theater, at whatever film happens to be shown, for those in charge believe that every intrepid in the country should see the unusual architecture of Hollywood's first big theater.

"Robin Hood" starts its twenty-fourth week on Monday, and whereas of the industry are betting that it will run at least two weeks more, making a six-month's engagement in all and shattering all previous film records for long runs by fully thirty days.

As soon as it is definitely decided on what is to follow Robin Hood the Hollywood Egyptian orchestra will go into rehearsal on the musical score, while Sid Grauman himself will supervise the staging of another prodigious stellar in magnitude to the Nottingham Castle pageant, which has been largely responsible for the continuous success of "Robin Hood," and the Hollywood Egyptian Theater.

Melford Will Start Picture Next Monday

March 25 is the date set for George Melford to start on his new Paramount production, "Salome Jane." Waldemar Young is making the film version and it is announced that Jacqueline Logan will appear in the title role.

Two other important players will be Maurice Flynn and William Davidson, the latter a well-known eastern actor and the former already known for some excellent work in Paramount pictures.

"Salome Jane" will represent upon the screen another of those classics which are virtually immortal and are distinctly American, ranking beside "Rip Van Winkle," "The Old Homestead," "Shore Acres" and others of that type. Mr. Melford plans some unusually strong features, especially some very beautiful typical scenery backdrops.

FAMOUS SCHOONER BOUGHT

Group of Vancouver Adventurers Gets Old Windjammer Lively, Noted for South Sea Exploits

A deal of interest to the Vancouver wharves and the Los Angeles port, the two-masted schooner, the famous old windjammer, has just been sold to a group of Vancouver adventurers under the leadership of Capt. Carl A. All, and she will be operated out of the port of Los Angeles.

Capt. All is remembered in coast shipping circles as the skipper of the schooner Lady Minto, which a year ago put into Los Angeles harbor, dismasted and leaking, a cargo of Scotch whisky in a storm off the coast of the Little Britain schooner. On previous trips down the coast the trim little British schooner has had furnished interest for the cruise of the Lady Minto was "Red" Harper, soldier of fortune and mariner, who for a long time has been kept on his feet by the powerful twin engines and with his surplus speed for a vessel of his type under favorable weather conditions.

RADIO REPORT

The Los Angeles radio station, KFI, is in receipt of a report from the Pacific coast, stating that the schooner Lady Minto, which was dismasted and leaking a year ago, has been sold to a group of Vancouver adventurers under the leadership of Capt. Carl A. All, and she will be operated out of the port of Los Angeles.

The schooner Lady Minto, which was dismasted and leaking a year ago, has been sold to a group of Vancouver adventurers under the leadership of Capt. Carl A. All, and she will be operated out of the port of Los Angeles.

News of Ships and Sailings at Pacific Ports

San Francisco, March 18.—(By A. P. Night Wire.) The schooner Lady Minto, which was dismasted and leaking a year ago, has been sold to a group of Vancouver adventurers under the leadership of Capt. Carl A. All, and she will be operated out of the port of Los Angeles.

The schooner Lady Minto, which was dismasted and leaking a year ago, has been sold to a group of Vancouver adventurers under the leadership of Capt. Carl A. All, and she will be operated out of the port of Los Angeles.

RUPTURE SEA ODYSSEY EXPERT HERE IS THRILLING

Seeley, Famous in This Specialty, Called to Los Angeles

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will personally be at the Rosslyn Hotel, and will remain in Los Angeles this Monday, Tuesday, Wednesday and Thursday from 9 a. m. until 5:30 p. m. daily.

Mr. Seeley says: "The Spermatic Rheid will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. This result effected during the day—the repair continues of itself throughout the night during sleep, while all strain is removed. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures, (following operations) especially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescription. Warning: all cases should be cautioned against the use of any elastic or web truss with understraps, as same rest where the lump is, and not where the opening is, producing complications, causing a surgical operation. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate without charge or fee, if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal Home Office, 117 North Dearborn Street, Chicago.—Advertisement.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

This is the joyful cry of thousands since Dr. Edwards procured Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands taken them every night just to keep right. Try them. 15c and 50c.—Advertisement.

When You Catch Cold Rub on Musterole

Musterole is easy to apply and it gets in its good work right away. Often it prevents a cold from turning into "flu" or pneumonia. Just apply Musterole with the fingers. It does all the good work of grandmother's mustard plaster without the blister.

Musterole is a clean white ointment made of oil of mustard and other home simples. It is recommended by many doctors and nurses. Try Musterole for sore throat, cold on the chest, rheumatism, lumbago, pleurisy, stiff neck, bronchitis, asthma, neuralgia, congestion, pains and aches of the back and joints, sprains, sore muscles, bruises, chilblains, frost-bite—colds of all sorts. Seldom fails to deliver results. 35c and 65c, jars and tubes; hospital size, \$2.95.

Better than mustard plaster

FOR BURNING ECZEMA

Apply Zemo, the Antiseptic Liquid—Easy to Use

From any drugstore for 35c, or \$1.00 for large size, get a bottle of Zemo. When applied as directed it effectively removes Eczema, quickly stops itching, and heals skin troubles, also Sores, Burns, Wounds and Chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, antiseptic liquid. Try it as we believe nothing you have ever used is as effective and satisfying.—Advertisement.

SHAKE INTO YOUR SHOES

And springle in the foot-bath Allen's Foot-Ease, the antiseptic, healing powder for Painful Blisters, Sweating feet. It prevents blisters and corns and takes the sting out of corns and bunions. Always use Allen's Foot-Ease to break in new shoes and enjoy the bliss of feet without an ache. Those who use Allen's Foot-Ease say that they have solved their foot troubles. Sold everywhere. Trial package and Foot-Ease Vialing Doll sent Free. Address ALLEN'S FOOT-EASE, Le Roy, N. Y.—Advertisement.

Makawell, Barkentine, Sails North; Lands South

Fierce Gales Give Crew Hard Battle for Life

Vessel Reaches Harbor After Stirring Voyage

Sailors are certain that a flax is in the wake of the fleet of sailing craft returning to Los Angeles Harbor in the lumber trade. Seven of these white-winged flyers have been in distress during the past few weeks while either en route to or from the local port. But whether or not you are superstitious you will have to admit that none of these could have a more colorful story of misfortune than the famous old barkentine Makawell—the ship that sailed north and arrived south.

Twenty-one years ago the Makawell, a four-master, was built for a band of great seafarers who called themselves the Barkentine Makawell Company. They made several voyages out the South Seas with the old craft and their tricks were turned in such a way that out there "Makawell" became synonymous with adventure and dare-devilry. For several years the Makawell has been laid up at San Francisco. Today she is anchored in the Outer Harbor here after departing from San Francisco for Gray's Harbor on February 17 and not getting there.

RIDES OUT GALES

Instead, twenty days later she put into Los Angeles Harbor; with a great part of her rigging and part of her sails gone; her mate with a broken leg and half of the crew incapacitated; with thirteen feet of water in her hold and still gaining. She had been 250 miles offshore, in danger of going on the rocks three times and rode through four northwest gales. The captain's wife and three small children were on board throughout the cruise. Gray's Harbor is 700 miles north of San Francisco. Los Angeles Harbor is 155 miles to the south.

Eighteen days out, with three men seriously injured and his craft in dangerous shape, Capt. A. P. Peterson got the Makawell within sight of the San Francisco Lightship in an attempt to reach port. As is the custom when a windjammer is sighted off The Heads, two tugs were dispatched from San Francisco to pick her up. But before the tug reached her the Makawell had been blown out of sight to the southward. San Francisco dailies the next morning ran long accounts of the "rum runner" sighted off The Heads and which disappeared when approached without the counterclaim.

TROUBLE BEGINS

Trouble started the first day out. Under the swell of the breeze off the Palomares the royal and topgallant halyards parted and a falling block struck a seaman on the head, injuring him severely. The following day the royal clew line parted and the falling block struck another seaman on the head. He remained unconscious for several hours. The ship sprung a leak and water gained on the pumps at the rate of thirteen inches every four hours. Rigging and sails parted under the gale. On the sixth day out, February 23, the gale increased and blew the Makawell hundreds of miles to the south. Here are excerpts from her log:

"February 23.—Northwest gale, heavy, took in lower topsail, double reefed mainsail and mizzen and set three-cornered spar to keep her on land. We are heading west southwest. Pumps and lights attended to.

"March 1.—Northwest gale, equally with heavy northwest sea. Took in two flying jibs, two topgallant sails and part of the mainmast. Forced to keep both pumps going all night. Crew finished shifting ballast—to keep us afloat—at 2 p. m. Water gaining on us.

SIXTY-MILE GALE

"March 2.—Gale blowing sixty miles per hour, took in jib, topgallant and two topsails, double reefed the mainsail, and single-reefed the mizzen and spanker. Starboard pump broke down. Lower topsail brace carried away. Water gaining. We are thirteen days out.

"March 3.—Gale blowing sixty miles per hour, took in jib, topgallant and two topsails, double reefed the mainsail, and single-reefed the mizzen and spanker. Starboard pump broke down. Lower topsail brace carried away. Water gaining. We are thirteen days out.

"March 4.—The mate was thrown off the forward house at 4:10 a. m. and broke his ankle. He went to bed until I could get forward to make him crutches. On that day the wind decreased in velocity and Capt. Peterson decided to make a desperate try for the port of San Francisco. On March 7 he got the Makawell in sight of the lightship when the ship was mistaken for a rum runner, but she was again blown off her course and her skipper was forced to run before the gale to Los Angeles. His log for the four days follows:

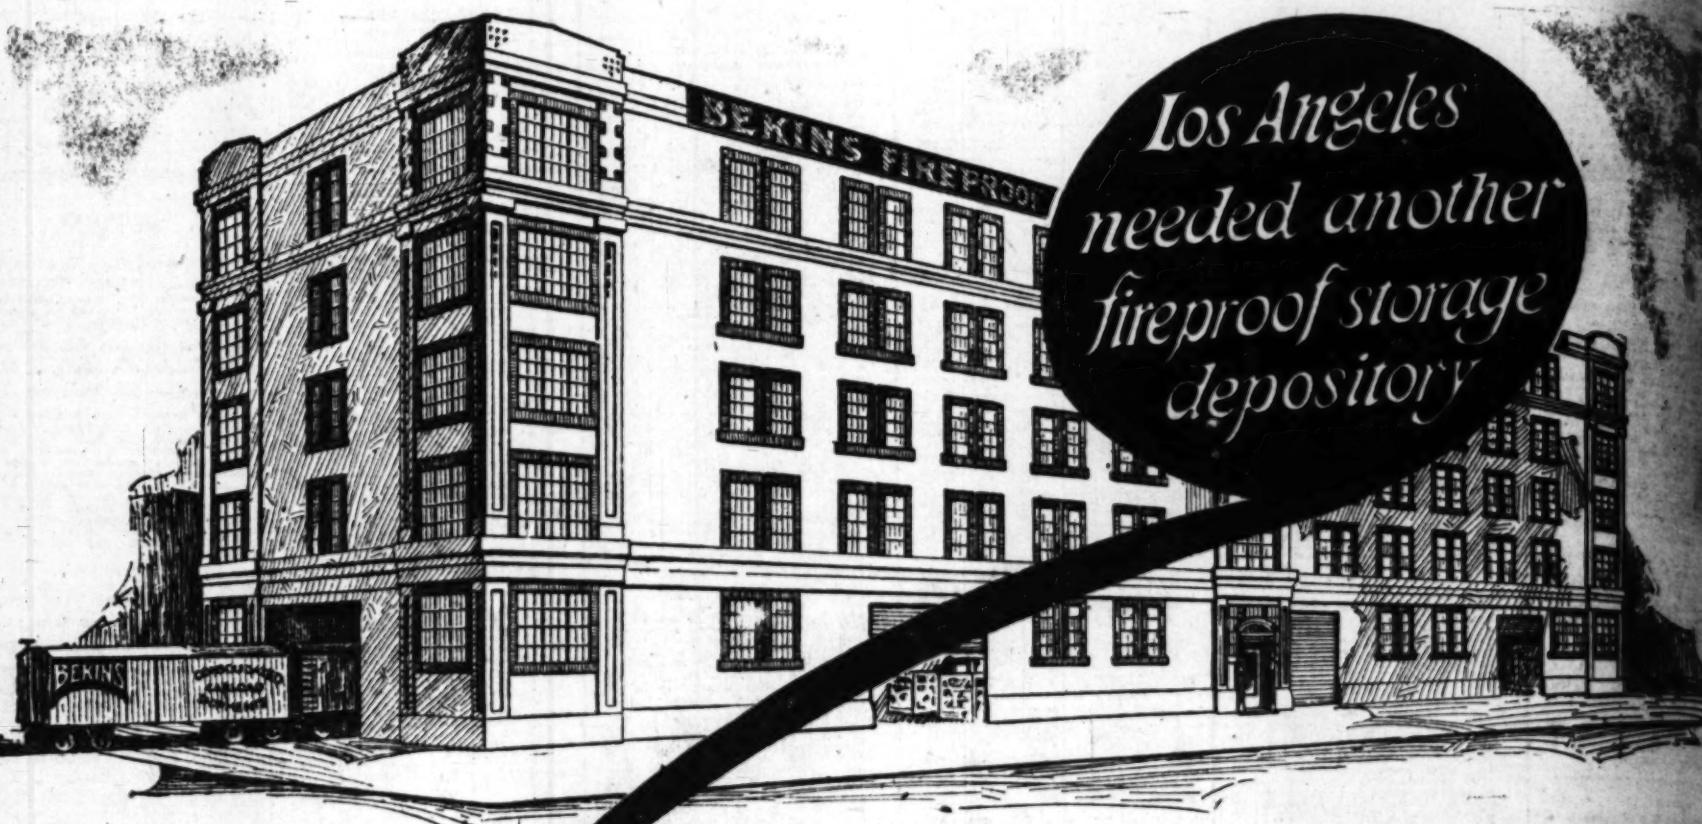

IN RIGGING ALSO DAY

"March 8.—Light northwest wind up to 7 p. m., then wind increased. Set royal and topsails. One man repairing sails and some men in rigging all day. Have taken mate's watch for two days. Seventeen days out.

REACH HARBOR

"March 9.—Northwest gale, sighted Point Arguello 3 a. m., 5 a. m. sighted San Miguel Island and passed safely. Pumps going all night but water gaining fast. Wind increasing and glass dropped three-tenths down. Reached San Pedro Harbor 7:30 p. m.

Mr. Peterson and the three children have accompanied Capt. Peterson on long trips to the South Seas. They have been through the worst typhoons of the South

Los Angeles
needed another
fireproof storage
depository

—so Bekins built it.

THE erection of this mammoth concrete and steel fireproof depository at 4th and Alameda streets, is typical of the Bekins policy to keep pace with the growth and progress of Los Angeles.

—This new Bekins, five-story, fireproof storage building, will facilitate movement of the constantly-increasing volume of both in and outbound shipments. Spur trackage, direct from the Southern Pacific main line, permits convenient routing of shipments to the new building for storage, packing or trans-shipment; without incurring extra handling and cartage charges.

—In addition to the five modern, fireproof depositories in this city, Bekins maintains warehouses in San Francisco, Oakland and Fresno. Twelve in all.

—The magnitude of the Bekins organization—its 27 years' experience and reputation for fair dealing—insures efficient, satisfactory and economical service, which merits your consideration.

—For particulars as to "How Bekins Cares for Your Household Goods," please phone—

Pacific but all declared this last

the most thrilling trip of them all. That is, they all said so except the youngest member of the crew, Alf Peterson, Jr., whose age is eighteen months. With a lusty sea-going yell he informed the world that he was happy anywhere.

**TEXAS COMPANY IN
FULL TRADE CYCLE**

**CORPORATION ACTIVE IN ALL
FIELDS — EAST, WEST,
NORTH AND SOUTH**

What is known as "the complete cycle" in the petroleum industry, has now been completed throughout the United States by the Texas Company, producers of Texaco petroleum products.

This complete cycle includes production, refining and marketing facilities, and the Texas Company

now has facilities in all three phases from coast to coast, and from the Gulf of Mexico to the Great Lakes.

This complete cycle has been achieved by the recent developments and extension of the Texas Company in the Far West, which was the link needed to make the activities of the company country-wide.

The production is from the company's wells in the Salt Creek field in Wyoming, and the refining facilities have been accomplished by the erection of a new refinery at Casper, Wyo.

BUILDING HUGE TANKS

C. E. Arnold, resident manager of the Union Oil Company of California, has gone to San Luis Obispo to supervise the construction of a 750,000-barrel cement reservoir. H. G. Smith of the engineering staff has been placed in charge of the construction of five 750,000-barrel reservoirs at the new Wilmington tank farm of the Union at Watsonville.

**Tank Farm to
be Established
at Long Beach**

By a "Times" Staff Correspondent
LONG BEACH, March 18.—The establishment of a huge oil tank farm and new industrial center here was forecast yesterday in the announcement of the purchase by a Los Angeles firm of thirty-one acres of land just northwest of the city from E. J. Burlingame, and a thirty-acre tract adjoining from a group of local owners.

The price for both tracts is said to have been \$122,000, of which \$101,500 was paid for the thirty-acre tract to Jonah Jones, Wallace Long, E. Trauger, Ruby Barham and A. Boyer.

The new owners of the property

are said to be members of a corporation headed by John P. Fust of Los Angeles. Earl W. Kelly of Long Beach is named as the company's local representative in the deal.

Plans, it is said, include the construction of a tank farm on the sixty-one acres just acquired and it is asserted that additional ground up to 200 acres will be bought up, a part of which will be devoted to the construction of a big refinery.

SMELTER PRODUCTION
(EXCLUSIVE DISPATCH)
HUMBOLDT (Ariz.) March 18. The smelter of the Southwest Metals Company is now producing better than 1,000,000 pounds of copper a month, the ore coming from the Bluebell, Swansea, Iron King and Sheldon mines, with irregular shipments from Crown King, Florida, Mayer and Kingman sections. Silver tailings from Piche, Nev., are being handled.

WELLS REDRILLED

Signal Hill Shows Results of Deepening Jobs

One by one the first producers on Signal Hill are being redrilled, deepening and put down to the lower zone. An example of the good results obtained by opening up the deep sands was shown a few days ago when the Marine Oil Corporation redrilled and deepened its No. 1 to 4080 feet and brought in a 1500-barrel well making 23 gravity oil. Marine No. 1, now drilling at 4038, is beginning to show up very nicely and will be the corporation's next big well on the hill.

The Painted Hills Oil Association is another striking example of the
